## **Fire Extinguishers**

Extinguishers are classed by the type fire they can put out. Some extinguishers are **Combination** types that can be used on several different types of fires

Using a Fire Extinguisher

P-A-S-S

Pull the pin

Aim at base of fire

Squeeze the handle

Sweep from side to side

# Types of Fires

<u>Class A</u> Combustible material such as paper and wood

#### <u>Class B</u>

Fires involving flammable liquids such as gasoline, paint, diesel fuel or solvents

#### <u>Class C</u>

Fires started in electrical equipment by arching or overheating

#### <u>Class D</u>

Fires involving combustible metal powders, flakes or shavings

### Safety Training Handout

**Smart Safety Rules** 

Stand 6 to 8 feet away from the fire

Use an extinguisher ONLY if you have been trained to use it.

Fire Extinguishers are for small fires in the early stages.

Know where fire extinguishers are located

Never place a pressurized fire extinguisher upright unless you are holding it - if it falls over the nozzle can break off

All fire extinguishers should have an inspection tag and a trigger seal and a pin

After use, do not put a fire extinguishers back on its mounting – it must be refilled before being returned to its location
