Complete Interactive Library

24-Hour HAZWOPER Package (Spanish) Interactive Online Training [S]

Â¿Listo para luchar con HAZWOPER? Esta paliza de 24 horas te acerca a la sumisiÃ³n, pero recuerda, no es un golpe de gracia total; necesitarÃis mÃis rondas de entrenamiento real.

24-Hour HAZWOPER Package Interactive Online Training [E]

Ready to wrestle with HAZWOPER? This 24-hour smackdown gets you closer to compliance, but remember, it's not a complete knockout blow â€“ you'll need more rounds of actual training.

8-Hour HAZWOPER Package (Spanish) Interactive Online Training [S]

Explora el mundo de HAZWOPER sin sumergirte por completo. Es una introducciÃ³n sÃ³lida, pero recuerda que esto no es el curso completo.

8-Hour HAZWOPER Package Interactive Online Training [E]

Dip your toes into HAZWOPER without getting completely submerged. A solid intro, but remember, this ain't the whole shebang.

A Few More Back Injury Techniques (short refresher) [E]

According to the National Safety Council and medical research, 70% of back problems result from degeneration of spinal discs; 20% of backaches are attributed to inflammation; 10% are due to actual back injuries and other miscellaneous causes.

Practicing safe lifting at home and work and having the right attitude about safety can be effective in preventing back injuries.

A Safety Carol - French Interactive Online Training [E]

Abrasive Blasting Safety: Inspect, Protect, and Contain Interactive Online Training [E,S] [2026]

This training covers abrasive blasting hazards, equipment inspections, respiratory protection, and containment practices to protect operators and bystanders.

Abrasive Wheels Grinder Safety (Gory) Interactive Training [E] [2011]

Abrasive wheels can be found in most maintenance shops and in some cases manufacturing. Persons who use this equipment must be well trained and attention to safety. Personal protective equipment should be worn when using the equipment. Injuries from grinders are lacerations or foreign body in nature. This course covers the safety requirements and specific hazards for this equipment.

Absenteeism and Tardiness [E] [2006]

Abusive Conduct in the Workplace: California AB2053 Interactive Online Training [E,S] [2017]

Combat workplace bullying effectively with AB2053 trainingâ€"California's legal requirement for a bully-free workplace.

Accident Investigation (short refresher) [E]

Accident Prevention and Countermeasures for Management [E]

This course, developed in conjunction with the experts at the U.S. Department of Transportation's (DOT) Transportation Safety Institute (TSI), covers the Accident Preventability Evaluations portion of the Federal Motor Carrier Safety Administration (FMCSA) Accident Countermeasures Manual. Reduced accident rates translate into lower insurance costs, less lost time by drivers, lower repair costs, and safer highways for everyone. Establishing and employing a company standard for safe driving will help reduce accident rates.

Accident Reporting - Supervisor's Guide Interactive [E] [2008]

Accident Reporting - Supervisor's Guide Details
Accident investigation is an important part of a supervisor's responsibility and accident investigation. Accident investigation and reporting is a preventive effort. This program will concentrate on the importance of conducting a thorough investigation and why the information is necessary.

Active Shooter: Active Assailant Response Plan Interactive Online Training [E,S] [2025]

Equip yourself with life-saving strategies for active assailant incidents, transforming uncertainty into empowered action.

Active Shooter: In The Workplace Interactive Online Training [E,S] [2025]

Prepare employees for an emergency situation with expert guidance, realistic scenarios, and survival strategies.

Advanced Communication Skills: Unlocking Your Influence Interactive Online Training [E,S] [2025]

This course teaches impactful communication, focusing on clarity, connection, and mastering complex conversations for strong relationships.

Affirmative Action in the Workplace Interactive Online Training [E] [2021]

Learn about Affirmative Action: policies promoting workplace diversity and equal opportunity.

AI for Employees: Literacy and Implementation Interactive Online Training [E] [2026]

This training is suitable for employees at all levels and does not require technical or programming experience.

Alcoholism in the Workplace [E]

Alcoholism is a disease which threatens families, the workplace and society. It's important for supervisors and co-workers to recognize the warning signs of alcoholism. The work-place must be kept free of alcoholism.

Americans With Disabilities Act (ADA) [E] [2006]

The American Disabilities Act (ADA) was signed into law on July 26, 1990. The goal of ADA is to allow Americans with disabilities to lead productive lives by providing minor accommodations. It is designed as a federal anti-discrimination statute to make public and private entities accessible to people with disabilities.

Anhydrous Ammonia Employee Interactive Online Training [E,S] [2022]

Anhydrous ammonia safety training covering OSHA regulations, PPE, and proper exposure response.

Anhydrous Ammonia Interactive Online Training [E] [2008]

This is a safety training program about the hazards of Anhydrous Ammonia and safe response to incidents involving this dangerous gas. Anhydrous Ammonia, NH3, is widely used in agriculture and industry. Penetrating vapors from this gas are suffocating and can lead to severe health problems, even death. This exciting program outlines an active program of safety and inspection to prevent accidents in the workplace and during emergency response.

Anti-Money Laundering in the U.S.A. Interactive Online Training [E] [2025]

Understand BSA and USA PATRIOT Act requirements to maintain a compliant five-pillar AML program and avoid legal penalties.

Anti-Money Laundering: U.S. and Global Standards Interactive Online Training [E] [2025]

Learn U.S. AML laws, the five pillars of compliance, and global standards to combat financial crime and terrorism.

Antitrust Law Made Simple Interactive Online Training [E] [2018]

Unlock U.S. antitrust laws' secretsâ€”Sherman, Clayton, FTC Acts. Learn the dos and don'ts for thriving businesses legally.

Asbestos (Construction) Online Course [E]

Construction workers engaged in construction work where asbestos-containing materials are present or are presumed to be present (ACM and PACM) face additional hazards on the job. To protect these workers, OSHA has extensive rules for this type of work, including rules for air monitoring, medical surveillance, respiratory protection, safe work practices, and more. These are designed to keep workers safe and free from asbestos-induced illnesses

Asbestos Cement Pipe Safety (Public Agency) Interactive Training [E] [2010]

Asbestos has been used for many products such as fireproofing, pipe insulation, theatre curtains, siding, roofing, gaskets and packing, water and sewer pipe. In water and waste water applications, asbestos cement pipe may contain as much as 20% asbestos or more. Asbestos is used as re-enforcement of the pipe. This program focuses on working safely with asbestos cement pipe.

Asbestos Exposure: Hazards and Prevention Interactive Online Training [E,S] [2023]

This course explains all things asbestos, including why it is a health hazard and the methods used to protect workers from harm.

Asking Behavioral and Situational Interviewing Questions Interactive Online Training [E] [2020]

Master effective interviewing techniquesâ€"situational, behavioral, focus on skills, competencies, and sample questions.

Asset Tracking Interactive Online Training [E,S] [2025]

Learn to implement and leverage asset tracking systems to improve efficiency, reduce costs, and ensure compliance

Avian Flu - General Industry Awareness Interactive Online Training [E]

Get industry-specific awareness of the avian flu. Understand risks, preventive measures, and response protocols.

Avian Flu Education for Prevention Interactive Online Training [E,S]

Deepen your understanding of avian flu prevention. Gain insights into risks, precautions, and response strategies.

Back Injury Prevention (Foundries) Interactive [E] [2006]

Back Injury Prevention (Foundries) Details
Back Injury Prevention (Foundries) program will explain how the back works so you'll have enough information to make the right choices on how to lift anything safely. According to the National Safety Council and medical research, 20% of backaches are attributed to inflammation such as arthritis, 10% are due to actual back injuries and other miscellaneous causes, 70% result from degeneration of spinal discs. That's right; aging of the spinal disc material causes the most trouble and can cause extreme pain even from routine body motions. We'll also discuss how strains and muscles work so you can prevent these types of back injuries also.

Back Injury Prevention (Retail) Interactive [E] [2009]

Back Injury Prevention (Retail) Details
Back Injury Prevention program explains how the back works so you'll have enough information to make the right choices on how to lift anything safely. According to the National Safety Council and medical research, 20% of backaches are attributed to inflammation such as arthritis, 10% are due to actual back injuries and other miscellaneous causes, and 70% result from degeneration of spinal discs. We'll also discuss how strains and muscles work so you can prevent these types of back injuries also.

Back Injury Prevention (Waste Management) Interactive [E] [2008]

According to the National Safety Council and medical research, 70% of back problems result from degeneration of spinal discs; 20% of backaches are attributed to inflammation; 10% are due to actual back injuries and other miscellaneous causes. Practicing safe lifting at home and work and having the right attitude about safety can be effective in preventing back injuries. This program explains how the back works. We discuss how strains and muscles work so back injuries can be prevented.

Back Injury Prevention Through Exercise (Schools) [E]

Back Injury Prevention Through Exercise Interactive [E] [2008]

Back Injury Prevention Through Exercise Details
Remember, a strong healthy back is less prone to injury.
This program outlines pro-active approach to back injury prevention. Specifically, a routine of exercises will build up the strength and endurance of your back. Remember, a strong healthy back is less prone to injury.

Back Injury Responsibility Streaming Interactive [E] [2005]

Back Injury Responsibility Details
This program is designed to help you understand the physical make up of the back. Experts Joe Higgins and Richard Hernandez offer their expertise on appropriate lifting techniques.

Back Safety: Health and Wellness Interactive Online Training [E,S] [2023]

The key to back safety is being proactive by understanding the hazards within your industry and the ergonomic changes that can reduce your exposure to those hazards.

Back Safety: Industrial Work Settings Interactive Online Training [E,S] [2023]

Do you work in an industrial setting? You know better than anyone else that your body takes a beating, but did you know that there are ways you can help minimize the wear and tear on your body over time - and also prevent injuries related to your work? Back injuries are avoidable.

Back Safety: Office Work Settings Interactive Online Training [E,S] [2023]

Do you work in an office setting? It might seem like a pretty safe place to work, but you are actually at risk for several injuries and exposed to several hazards â€“ some of which you might never expect. Among these are back injuries.

Baler Safety: The Basics Interactive Online Training [E,S] [2026]

This training discusses baler safety, including choosing the right baler, how to avoid common hazards, and safety guidelines.

Best Practices for CMV Drivers: Right-of-Way and Intersections [E]

This "best practices" course covers one topic included in the Safe Driving Practices for CMV Drivers course: Right-of-Way and Intersections.

Bloodborne Pathogens in Healthcare Settings Interactive Online Training [E,S] [2022]

Whether in routine procedures or emergencies, you are exposed to patients as you assist in or perform their care. Your job may involve transporting materials used to provide care â€“ such as sheets, or vials of bodily fluid â€“ or you may be a direct provider who comes into contact with patients' bodies regularly. Many routine medical tasks â€“ and certainly emergency response scenarios â€“ bring with them a risk for exposure to bloodborne pathogens.As a healthcare worker, your risk for exposure to these bloodborne pathogens is well above the norm. In this training, you will learn more about your risk and how to minimize that risk. We will also explore the role and responsibilities employers play, and what to do in the event of exposure.

Bloodborne Pathogens: A Guide for General Industry Interactive Online Training [E,S] [2025]

This course provides general industry workers with knowledge to protect against and respond to bloodborne pathogens.

Bloodborne Pathogens: Standard Precautions in the Workplace Interactive Online Training [E,S] [2025]

This training outlines OSHA's Bloodborne Pathogens standard, helping you minimize exposure risks and protect your health.

Bloodborne Pathogens: The Unexpected Hazard Interactive Online Training [E,S] [2016]

Learn how to respond to unexpected encounters with bloodborne pathogens at work safely.

Body Language & Beyond: Nonverbal Communication Skills Interactive Online Training [E,S] [2025]

This course helps you understand and use unspoken signals to improve your personal and professional interactions.

Bomb Threat Procedures Online Training [E] [2007]

Bomb Threat Procedures program is only a guide in knowing what to do if there is a bomb threat. Bombing and the threat of being bombed are harsh realities in today's world. The public is becoming more aware of those incidents of violence and the potential for destruction and physical harm. Law enforcement is charged with the responsibility of protecting life and property, but law enforcement alone will not do the job. It's up to each and everyone to do their part. Training and awareness will go a long way toward making your homes and workplaces safer and more secure environments.

Brand Ambassadors: Every Employee's Role in Customer Success Interactive Online Training [E,S] [2025]

This course reveals how every employee significantly shapes customer success and brand perception daily.

Breathe Safely: The Proper Use of Respiratory Protection Interactive Online Training [E,S] [2018]

Learn to identify respiratory hazards and master the proper use of protective equipment to ensure workplace safety.

Brian's Story: You Can Make A Difference Interactive Training [E,S] [2008]

Jeff Bell received the phone call that every parent fears. His son Brian, a young man full of potential and promise, had been killed on the job. In this powerful presentation, Jeff Bell introduces his son Brian and takes the audience step by step through the events leading to his death.

Building Resilient Workforces: Your People-First Strategy Interactive Online Training [E,S] [2025]

This training will build resilient, adaptable teams for a changing workplace.

C. HARLEY â€“ â€œHow Far Can You Fly?â€•â€“ Wear Your Seat Belts Interactive Online Training [E] [2006]

Learn the importance of wearing seat belts for safety and protection.

CAL OSHA New Laws On Serious Injuries Interactive Training [E] [2011]

Federal OSHA has been critical of California due to being lax on "serious" violations associated with inspections and investigations. The Federal government wants California to significantly increase penalties especially those classified as serious. In order to address these concerns, California State Assembly Bill 2774 was adopted on January 1, 2011.

This program reviews the meaning of the new law AB2774, legal issues, mitigating serious hazards, and how employers can prepare for the changes.

Cal/OSHA Preventing Hearing Loss Interacting Training [E,S]

Hearing loss can have a devastating impact on our quality of life and the quality of life for our loved ones; however, controlling our exposure to high levels of noise can prevent the life-changing effects of hearing loss. This program provides an overview of California OSHA's Hearing Conservation Program Standard and explains how our hearing can be damaged by exposure to harmful noise. Viewers will also learn that hearing loss can be prevented by participating in the hearing conservation program and properly wearing hearing protection when required.

California 1-Hour Sexual Harassment Course for Non-Supervisory Employees Interactive Online Training [E,S] [2023]

This course fulfills SB1343 for non-supervisors in CA, covering 8 key topics in workplace harassment prevention.

California 2-Hour Sexual Harassment Course for Supervisory Employees Interactive Online Training [E,S] [2023]

Comprehensive training for California supervisors covering sexual harassment prevention, diversity, retaliation laws.

Carbon Monoxide Poisoning (Chem/Hazmat) Interactive Online Training [E,S] [2009]

Learn about chem/hazmat risks.

Carbon Monoxide Poisoning (PPE) Interactive Online Training [E,S] [2009]

Learn about carbon monoxide risks.

CDL Safe Driving Alcohol/Drug for Managers Interactive Online Training [E] [2025]

Essential training for CMV managers on drug misuse, covering how to recognize impairment, FMCSA regulations, and effective intervention strategies.

CDL Safe Driving Alcohol/Drug Interactive Online Training [E] [2025]

Learn about CDL drug and alcohol testing procedures, the consequences of refusal/failure, and everyone's role in road safety.

CDL Safe Driving: Defensive Driving Techniques Interactive Online Training [E,S] [2024]

Master situational awareness, speed management, and emergency preparedness for safe driving in commercial vehicles.

CDL Safe Driving: Drug and Alcohol Training for Managers Interactive Online Training [E,S] [2025]

The regulations and procedures involved in drug and alcohol testing for supervisors of CDL drivers and employees.

CDL Safe Driving: Drug and Alcohol Training Interactive Online Training [E,S] [2024]

This training discusses the regulations and procedures involved in drug and alcohol testing for CDL drivers and employers.

Chemical Dependency and What To Do About It [E] [2003]

This program focuses on the supervisor's responsibilities on handling chemical dependency employees. There are on-camera interviews by Theodore Holcombe, Service Director, Brad Davis, Narcotics Detective, Rolfe Floyd, VP of Operations, and Howard who is a drug user who share their experiences on this subject.

Chemical Exposure Disaster Exercise Interactive Training [E] [2008]

Chemical Exposure Disaster Exercise Details
Chemical Exposure Disaster Exercise program reviews a typical chemical exposure drill, giving typical medical staff and military personnel an idea of what to expect in case of a chemical exposure scenario.

Chemical Hazards: Eye Washing and Emergency Showers Interactive Online Training [E,S] [2024]

This course explains compliance regulations for emergency safety equipment and when/why it's required in the workplace.

Chemical Hazards: Hazardous Material Safety Interactive Online Training [E,S] [2026]

This training teaches workers to identify, handle, store, and safely dispose of hazardous materials in the workplace.

Chemical Hygiene and Engineering Interactive Training Program [E] [2009]

An integral part of your university's Laboratory Safety Program is the Chemical Hygiene Plan. This plan is designed to protect you from chemical and physical hazards present in your instructional and research laboratories. A component of this plan is engineering controls. Engineering controls eliminate or reduce exposure to chemical or physical hazards through the use or substitution of engineered machinery or equipment.

Chlorine Safety Interactive Online Training [E]

Cleaning and Sanitizing In A Food/Pharmaceutical Processing Facility Interactive Training [E] [2007]

Cleaning and Sanitizing in a Food/Pharmaceutical Processing Facility program will concentrate on cleaning and sanitizing of process equipment. It's extremely important to understand basic cleaning and sanitizing procedures and to use these procedures when cleaning equipment used in a food or pharmaceutical manufacturing process. Lack of proper sanitation can cause increased returns of products, shorter shelf life, less profit, and can invite the threat of possible operation shutdown.

Clear, Concise, Confident: The Keys to Professional Writing Interactive Online Training [E,S] [2025]

This course empowers you to master impactful professional writing, ensuring your messages are understood and acted upon.

CMV Safety: Aggressive Driving and Road Rage Interactive Online Training [E,S] [2025]

CMV defensive driving strategies to identify aggressive motorists, control stress, protect your CDL, and maintain road safety.

CMV Safety: Best Practices Interactive Online Training [E,S] [2025]

This course will prepare you to safely operate a CMV by examining best practices outlined by the FMCSA.

CMV Safety: Fighting Fatigue Interactive Online Training [E,S] [2025]

Train to fight driver fatigue, ensure FMCSA HOS compliance, and keep your crew, cargo, and the public safe on the road.

CMV Safety: Hours of Service Interactive Online Training [E,S] [2024]

This course explains FMCSA Hours of Service rules, common mistakes, and how to keep drivers and employers compliant.

CMV Safety: Preventing Injuries Interactive Online Training [E,S] [2025]

This course will prepare you to prevent injuries while operating a commercial motor vehicle (CMV).

Combustible Dust Can Explode Interactive Online Training [E,S] [2011]

Combustible Dust Can Explode Details
Pneumatic conveying equipment and dust control exhaust systems that transport combustible particulate solids need to be protected from fire and dust explosions. If combustible particulate solids are thrown into the workplace air during cleaning or by excessive drafts in the plant, the resulting combustible dust can present a fire hazard if exposed to an ignition source. The program reviews the NFPA standards for combustible dust, problems and solutions.

Commercial Driver's License (CDL) for Drivers [E]

This course, developed in conjunction with the experts from the Transportation Safety Institute (TSI) of the U.S. Department of Transportation (DOT), covers the regulations in part 383 of the Federal Motor Carrier Safety Regulations (FMCSR): Commercial Driver's License (CDL). This course outlines the minimum regulatory requirements for obtaining and maintaining a CDL. It focuses on information the driver needs to know to comply with the regulations.

Commercial Driver's License (CDL) for Management Online Course [E]

This course, developed in conjunction with the Transportation Safety Institute (TSI) of the U.S. Department of Transportation (DOT), covers the regulations in part 383 of the Federal Motor Carrier Safety Regulations (FMCSR): Commercial Driver's License (CDL). This course outlines the minimum regulatory requirements for obtaining and maintaining a CDL.

Commercial Landscaping Equipment: Mower Safety Interactive Online Training [E,S] [2026]

This training teaches mower safety, blade hazards, slope operation, and habits to protect operators and the public effectively.

Communication & Interpersonal Skills Package Interactive Online Training [E]

Communication isn't just what you say, it's how you listen, respond, pause, and yes, even how you manage your own stress when someone sends "per my last email." This training gives you the people skills that schools skip and workplaces crave. We're talking emotional intelligence, candid conversations, accountability, microaggressions, bias, conflict resolution, you know, the things that make or break culture. Whether you're trying to be heard, get through to your team, or just stop taking everything personally, this is your go-to for stronger communication and smoother collaboration.

Communication Skills: Conflict Resolution Interactive Online Training [E,S] [2024]

Conflict is caused by misunderstandings or differing opinions. Learn to manage and maintain a productive work environment.

Compressed Air Safety - French Interactive Online Training [E]

Compressed Gas Safety: For the Trades Interactive Online Training [E,S] [2025]

This training offers an overview of the dangers and safety precautions for handling compressed gases and cryogenic liquids.

Concrete and Masonry Construction Online Course [E]

The Occupational Safety and Health Administration (OSHA) designs and enforces standards to assure a safe work environment for America's workers. Because workers involved in concrete and masonry construction face specific hazards, OSHA has developed standards to address and help minimize those hazards.
This course covers the OSHA regulations for employees involved in concrete and masonry construction.

Confined Spaces in Construction Interactive Online Training [E,S] [2026]

Identify hazards, master permit roles, and stay safe around confined spaces with this essential OSHA-aligned course.

Confined Spaces: Acceptable Entry Conditions (Canada) Interactive Online Training [E,S] [2026]

This training provides a foundational overview of confined space safety aligned with Canadian OH&S regulations and CSA Z1006 standards.

Confined Spaces: Acceptable Entry Conditions Interactive Online Training [E,S] [2026]

This training teaches how to identify confined spaces, manage entry permits, and mitigate atmospheric hazards.

Connecticut 2-Hour Non-Supervisor Sexual Harassment Interactive Online Training [E,S] [2020]

Comply with Connecticut's "Times Up" Act with our comprehensive sexual harassment training course.

Connecticut 2-Hour Supervisor Sexual Harassment Interactive Online Training [E] [2020]

Comply with Connecticut's "Times Up" Act with our interactive 2-hour sexual harassment training for supervisors.

Connecting for Success: Building Business Relationships Interactive Online Training [E,S] [2025]

Build strong, genuine business relationships that create long-term success and opportunities beyond just transactions.

Construction Jobsite Safety: Spotting and Signaling for Cranes, Derricks, and Hoists Interactive Online Training [E,S] [2026]

This training teaches you how to master OSHA-standard signals and communication to safely lead crane and hoist operations.

Construction Safety: PPE Selection and Requirements Interactive Online Training [E,S] [2023]

Learn how to select, use, and manage Personal Protective Equipment (PPE) in the construction industry.

Countering Terrorism Interactive Online Training [E] [2013]

Security officers must be alert to terrorist threats. If a terrorist incident occurs at a facility, security officers are likely to be first on the scene to observe the situation. They themselves could become victims of the attack.

Countermeasures On Water Interactive Training [E] [2002]

The program studies the factors that challenge responders to address water spills, including weather, wind, sea conditions, and currents.

COVID-19: Staying Safe at Work for Employees Interactive Online Training [E] [2020]

COVID-19: Staying Safe at Work for Employers Interactive Online Training [E] [2020]

Crane Operation Safety Principles for Oil and Gas Manufacturing Interactive Online Training [E,S] [2026]

This training covers heavy lifting safety, specialized equipment, and critical inspection and rigging protocols in oil and gas.

Crane Safety: Safe Rigging & Lifting Operations Interactive Online Training [E,S] [2026]

This training covers OSHA and ASME crane safety, rigging inspections, sling tension, hook criteria, and overhead lifting hazards.

Crane Signal Person Basic Training Interactive Online Training [E,S] [2010]

This training is an important resource to help crane signal people and crane operators learn the 20 standardized hand signals

Crane, Derrick, and Hoist Safety in Construction Interactive Online Training [E,S] [2024]

This training identifies the uses and dangers associated with cranes, derricks, and hoists in construction.

Crane, Derrick, and Hoist Safety in Industrial Settings Interactive Online Training [E,S] [2025]

This training identifies the types, uses, and safety requirements for using cranes and hoists in industrial settings.

Critical Incident Stress Debriefing (Emergency Preparedness) Interactive Training [E]

Critical Incident Stress Debriefing (Emergency Preparedness) Details
Workplace violence, disasters, terrorism, suicides, major accidents, and other incidents at work reveal the need for more information and action relating to CISD. This program will help you recognize the importance of having a program that provides debriefings, how to make best use of these services, when to call, and dealing more effectively with critical incidents when they occur.

CUI Awareness for Engineering, Quality, and Supply Chain Personnel Interactive Online Training [E] [2026]

This course covers CUI identification, authorized markings, access controls, secure handling, and mandatory cyber-incident reporting requirements for personnel.

Cultural Competency in the Workplace Interactive Online Training [E] [2026]

Build cultural competency skills to improve communication, teamwork, and workplace inclusion.

Customer Service: Success Strategies Interactive Online Training [E,S] [2024]

This course will help you learn the importance of, the principles behind, and tips to executing good customer service.

Cybersecurity Protecting Your Digital Workspace Interactive Online Training [E,S] [2022]

Protect against physical & digital theft. Learn about common cyber threats like malware, ransomware, hacking & steps to protect against them. Reflect on your security practices & improve protection of sensitive info.

Cybersecurity: PCI Compliance Standards Interactive Online Training [E,S] [2026]

Safeguard customer trust by mastering PCI DSS standards to protect cardholder data and prevent costly security breaches.

Data Privacy: Safeguards and Security Interactive Online Training [E,S] [2026]

Master the safeguards and daily habits needed to protect sensitive data and maintain organizational trust.

Data Privacy: Security in the Auto Shop Interactive Online Training [E,S] [2026]

This training equips automotive professionals to safeguard customer NPI and comply with GLBA requirements in modern shop environments.

Data Security: The Disposal Rule Interactive Online Training [E,S] [2026]

This course explains the FTC Disposal Rule, teaching secure destruction of consumer information to prevent identity theft and ensure compliance.

De-Escalation Techniques: Conflict Resolution in Construction Interactive Online Training [E,S] [2025]

Learn how to de-escalate heated situations on the job site to promote safety and prevent conflict.

De-Escalation Techniques: Conflict Resolution Interactive Online Training [E,S] [2025]

This course provides practical strategies to de-escalate tense situations across various settings.

Delegation Made Simple Interactive Online Training [E] [2026]

Learn effective delegation skills to boost productivity, empower teams, and strengthen leadership performance.

Diabetes Prevention [E]

Diabetes is a major health problem in many countries, not only the United States. Many people don't know or understand diabetes and how it affects your health. We encourage the people who have been diagnosed as pre-diabetes and those with Type 2 diabetes to research the subject as it can be a serious health problem.

Discipline: Performance Standards Online Interactive Training [E]

Discrimination and Bias: Candid Conversations Interactive Online Training [E,S] [2023]

This course will help you define, identify, and learn the process to overcome discrimination and unconscious bias.

Disinfectant Safety: Sodium and Calcium Hypochlorite Interactive Online Training [E,S] [2025]

This training equips workers to safely handle, store, and respond to incidents involving sodium and calcium hypochlorite disinfectants.

Diversity in the Workplace: Candid Conversations Interactive Online Training [E,S] [2022]

A fundamental hiring goal is to at least provide representation based on local demographics. Affirmative action principles recognize that this is not enough. Areas with very homogenous populations typically lack the benefits of a diverse workforce, and purposeful recruitment and advancement practices are required. In this training, we focus on four facets of diversity: race, gender, age, and disability. There are absolutely other ways in which humans are diverse â€“ including how we self-identify. Starting with these areas instead sets the stage for fostering a diverse workplace.

DoD CUI: Policy & Practice Interactive Online Training [E,S] [2026]

This training discusses Department of Defense Controlled Unclassified Information safeguarding, dissemination, and misuse.

Dog Bite Prevention (Public Agency) Online Interactive Training [E] [2006]

Dog Bite Prevention (Public Agency) Details
For every letter carrier bitten by a dog, an estimated 900 children are victimized by the senseless pain and suffering of dog attacks. Dog bites result in approximately 44,000 facial injuries in the United States. Male patient injuries slightly outnumber females in most studies. This program covers dog behavior, prevention techniques and first aid. Also included are tips from Ron Berman, canine behavior expert.

DOT HazMat "General Awareness & Security Awareness" Interactive Online Training [E,S] [2014]

DOT Security Awareness is a general overview of facility security practices and procedures.

DOT HazMat "General Awareness/Familiarization" Interactive Online Training [E,S] [2014]

Stay current on DOT HazMat regulations with General Awareness/Familiarization training for safe hazardous materials transport.

DOT HAZMAT Security Awareness for Drivers Interactive Online Training [E]

This course, written for drivers of hazardous materials shipments, covers the new requirements designed to enhance the safety of hazardous materials, per the March 25, 2003, DOT final rule, "Hazardous Materials: Security Requirements for Offerors and Transporters of Hazardous Materials." This course can be used for either new employees or as refresher training.

DOT Safety: Hazardous Materials Interactive Online Training [E,S] [2025]

This training discusses the Department of Transportation's guidelines on the transportation of hazardous materials.

DOT Safety: Hazardous Materials Security Interactive Online Training [E,S] [2025]

This training helps you understand the responsibilities for the security and effective, secure transport of HAZMAT materials.

DOT Safety: Inspecting and Securing Hazardous Cargo Interactive Online Training [E,S] [2026]

Master advanced HazMat securement to prevent leaks, ensure compliance, and protect the public on every haul.

Driver Qualifications (DQ) for CMV Drivers [E]

This course, developed in conjunction with the experts from the Transportation Safety Institute (TSI) of the U.S. Department of Transportation (DOT), provides an overview of the Qualification of Drivers regulations with an emphasis on what the driver needs to know.

Driver Qualifications (DQ) for CMV Drivers Online Course [E]

This course, developed in conjunction with the experts from the Transportation Safety Institute (TSI) of the U.S. Department of Transportation (DOT), provides an overview of the Qualification of Drivers regulations with an emphasis on what the driver needs to know.

Driver Safety Training: Distracted Driving Dangers and Prevention Interactive Online Training [E,S] [2026]

Master the four types of driving distractions and learn essential strategies to stay focused and safe on the road.

Driver Safety: Aggressive Driving and Road Rage Interactive Online Training [E,S] [2025]

This course will help you recognize aggressive driving, understand what triggers it and effectively respond to this behavior to keep yourself safe.

Driver Safety: Fighting Fatigue Interactive Online Training [E,S] [2025]

This training teaches you how to recognize and fight driver fatigue to keep yourself, your crew, and others safe on the road.

Driver Safety: Preventing Injuries Interactive Online Training [E,S] [2025]

This course helps you relearn crucial safe driving habits and identify key factors to prevent injuries on the road, making you a more vigilant and responsible driver.

Driver Training: Employee Safety Interactive Online Training [E,S] [2023]

Learn safe driving techniques. Understand operational expectations, vehicle maintenance, and defensive driving.

Driving Safety Training Package Interactive Online Training [E]

Turn your team's commute from a white-knuckle ride into a smooth, safe journey.

Driving Safety: Hazardous Weather Interactive Online Training [E,S] [2024]

Driving Safety in Hazardous Weather equips drivers with essential knowledge on navigating dangerous weather conditions.

Dump Truck Safety Interactive Training [E] [2008]

Dump trucks can carry and dump material, tow equipment and trailers, spread salt and sand on icy roads and apply asphalt on roads. There are a variety of makes and models of trucks; therefore it is important to review the truck's safety and maintenance requirements as outlined in the operator's manual. This program discusses maintenance and operation of typical dump trucks with emphasis on safety.

Earthquake Safety: Preparation and Response Interactive Online Training [E,S] [2026]

This course teaches earthquake preparation and response to keep workers safe before, during, and after shaking stops.

EEO Made Simple Interactive Online Training [E,S] [2021]

Understand EEO laws: Prevent discrimination, protect employee rights, and ensure a fair workplace.

Effective Email Communication Interactive Online Training [E,S] [2025]

Learn email best practices for clear, professional communication and effective connections.

Effective One-on-Ones for Managers: Strategies for Success Interactive Online Training [E,S] [2022]

Improve workplace culture with effective one-on-one meetings. Celebrate success, address concerns and mentor employees.

Electric Pallet Jack Training Interactive Online Training [E,S] [2009]

Ideal for warehouse and distribution center employees.

Electric Pallet Jacks Safety: Best Practices Interactive Online Training [E,S] [2025]

This training discusses the uses and safe operating practices of electric pallet jacks including maneuvering and maintenance.

Electrical Contact Release Training Interactive Online Training [E,S] [2021]

Electrical Safety for Non-Electricians: Give It Some Respect Interactive Online Training [E,S] [2001]

Learn basic electrical safety, hazard awareness, and safe work practices to prevent injuries on and off the job.

Electrical Safety for Qualified Workers Interactive Training [E,S] [2014]

Electricity is a powerful force that can cause serious injury and death. When it comes to electrical job tasks, it only takes an instant to turn a momentary mistake into a fatality. This is why qualified electrical workers must understand the hazards presented by exposed energized parts and know how to protect themselves through the use of safe electrical work practices. That's the purpose of this program--to explain the safety precautions these employees must always take to avoid needless tragedies while performing any type of electrical work.

Electrical Safety-Related Work Practices & the 2021 NFPA 70E for Electrical Workers Interactive Online Training [E,S] [2020]

This program explains NFPA 70E electrical safety, covering shock/arc flash hazards, approach boundaries, and proper PPE.

Electrical Safety-Related Work Practices & the 2021 NFPA 70E for Supervisors & Managers Interactive Online Training [E,S] [2020]

This covers 2021 NFPA 70E for managers, including risk assessments, safety programs, and shock & arc flash hazards.

Electrical Safety: Arc Flash Prevention Interactive Online Training [E,S] [2024]

Master arc flash prevention and the implementation of safety measures in line with 2024 NFPA 70E standards.

Emergency First Aid (Health Care) Interactive Training [E] [2009]

Emergency First Aid (Health Care) Details
Emergency First Aid program is designed to provide basic information on how to properly apply first aid in emergency situations. First Aid is the immediate care given to the injured or suddenly ill person. It's temporary assistance that is rendered until competent medical care, if required, arrives and takes over. Emergency First Aid means dealing with urgent conditions. This program has been designed to help provide basic information that will help you properly apply first aid that can save lives, reduce recovery time, and can possibly be the difference between temporary disability or lifelong disability for the victim.

Employee Development: Avoid Being Overwhelmed Interactive Online Training [E,S] [2023]

Learn how to implement strategies, discover a healthy work-life balance, and find the power to take charge of your own well-being.

Employee Development: Time Management Interactive Online Training [E,S] [2023]

Effective time management increases your focus and improves your productivity. This allows you to capture bigger opportunities and enjoy a harmonious work-life balance, spending more time on the projects, goals, and people that matter.

Employee Productivity Interactive Online Training [E] [2009]

Employee Productivity program is designed to provide solutions to employee productivity. It's been said that a company is only as good as its supervisors. Good supervision by a good supervisor. A good supervisor is the link between employees and upper level management, a role model, a leader, an evaluator, should also be flexible and fair. A supervisor should know workplace policies, coach employees, observe and document employee performances, troubleshoot, communicate.

Employee Safety Orientation (Supermarket) Interactive Training [E] [2008]

This program covers some basic safety rules that apply to all employees.

Employee Training Responsibilities Interactive Online Training [E] [2009]

Training and development are areas of concern to the supervisor and the company. The efficiency, safety, and even the morale of the employee depends on how well the supervisor trains his/her employees.

English Language Proficiency: Commercial Drivers Interactive Online Training [E,S] [2026]

Training explains the FMCSA English proficiency rule, its impact on road safety, and driver and employer responsibilities.

Entry-Level CMV Driver Training Online Course [E]

The Federal Motor Carrier Safety Administration, per 49 CFR Subpart E - Entry-Level Driver Training Requirements, requires all entry-level drivers who drive in interstate commerce and are subject to the commercial driver license (CDL) requirements of 49 CFR Part 383 to complete training addressing the following four areas: Driver qualification requirements, Hours of service of drivers, Driver wellness, and Whistleblower protection. This course covers all four topics for the new commercial motor vehicle (CMV) driver.

Environmental Protection Agency (EPA) 1990 Clean Air Act Interactive Online Training [E] [2006]

Environmental Protection Agency (EPA) 1990 Clean Air Act Details
The EPA's major problem is to solve oil spills, hazardous waste, and materials. The Clean Air Act is the comprehensive federal law that regulates air emissions from area, stationary, and mobile sources. This program explains the role of government, pollution, permits, and enforcement.

Ergonomics (Construction) Online Course [E]

Construction work is physically demanding. Workers often need to lift, stoop, bend, kneel, twist, stretch, and repeatedly perform other physically awkward tasks. Constantly pushing the body past its natural limits can lead to work-related musculoskeletal disorders. This is why ergonomics plays such an important role in preventing injuries on-the-job.
This course explains the role ergonomics should play in maintaining safety at a construction work site. This includes identifying the types and causes of work-related musculoskeletal disorders and explaining the tools, equipment, and work practices employees can use to prevent them.

Ergonomics in the Workplace Canada Interactive Online Training [E] [2026]

This training teaches you how to master Canadian OHS ergonomics rules, power zone lifts, and workstation setup controls.

Ethical Decision-Making in the Workplace Interactive Online Training [E] [2026]

Learn ethical decision-making skills to build trust, ensure compliance, and support a respectful workplace.

Excavation, Trenching, and Shoring Safety in Construction Interactive Online Training [E,S] [2024]

This training identifies hazards, safety precautions, and protective systems when excavating or digging a trench.

Excelling in Service Interactive Online Training [E,S] [2025]

This course equips participants with essential techniques to provide exceptional service across all platforms.

Eye Protection: Hazards and Prevention in Construction Interactive Online Training [E,S] [2026]

Master OSHA-compliant eye safety to prevent injuries from debris, chemicals, and radiation on the jobsite.

Eye Protection: Hazards and Prevention Interactive Online Training [E,S] [2024]

This course will help identify common eye hazards, explain required eye protection, and how to properly handle eye injuries.

Fair Labor Standards Act: FLSA Compliance Interactive Online Training [E,S] [2023]

Don't get tripped up by not knowing the terminology, labor standards, and implications of the Fair Labor Standards Act! Criminal prosecution for violations of the FLSA may result in fines and possible imprisonment. Ignorance is not a defense! Take this training and make sure to align your practices with compliance expectations.

Fall Prevention - Canada Interactive Online Training [E] [2026]

This training teaches Canadian fall protection rules and controls to safely prevent severe workplace injuries.

Fall Protection & Prevention: Jobsite Safety Interactive Online Training [E,S] [2023]

Falls from height - and falling objects - present serious and life-threatening hazards for workers on many job sites. If your work involves any type of elevation, this training is for you!

Fatigue Management Interactive Online Training [E] [2010]

Address driver fatigue in the trucking industry with strategies to control sleep and improve safety.

Fatigue Management: Fighting Fatigue in the Workplace Interactive Online Training [E,S] [2024]

This training provides information on the hazards of workplace fatigue and strategies to combat it.

FCRA Compliance: Risk-Based Pricing Rule Interactive Online Training [E,S] [2026]

Learn to navigate Regulation V, determine materially less favorable terms, and master the Credit Score Disclosure Exception.

Fire Extinguishers: Putting Out The Fire Interactive Online Training [E,S] [2025]

This training covers portable fire extinguisher basics, emphasizing hands-on practice and compliance with safety regulations.

Fire Safety Training: Prevention and Response in Offices Interactive Online Training [E,S] [2023]

Fire hazards can strike unexpectedly in any workplace, including office settings, posing a serious threat to both people and property. The consequences of a fire emergency can be catastrophic if not managed effectively. However, with a proactive understanding of fire safety and emergency response plans, you can prevent and respond to fire emergencies with confidence.

First Aid: Construction Sites Interactive Online Training [E,S] [2024]

This course dives into the fundamentals of first aid for injuries and illnesses common to construction sites.

First Aid: CPR Interactive Online Training [E,S] [2024]

Learn how and why to use CPR to save the life of someone in cardiac arrest as an essential element of first aid.

First Aid: Preparation and Response Interactive Online Training [E,S] [2022]

This course covers first-aid categories, equipment, common injuries, and legal considerations to prepare you for emergencies.

First Aid: The Basics Interactive Online Training [E,S] [2024]

This course covers the basics of applying first aid to address common workplace injuries and illnesses.

First Response to a Hazardous Substance Emergency â€œHazMattersâ€• Interactive Online Training [E] [2013]

Learn how to respond to hazardous substance releases as a First Responder-Awareness Level under OSHA's HAZWOPER regulation.

Five Star Selling Interactive Online Training [E] [2004]

Master retail sales with friendly interactions, effective presentations, and closing techniques for happy customers and increased sales.

Flagger Safety (Construction) Online Training [E] [2008]

Flagger Safety (Construction) Details
The flagger's job is important to protect workers on the highway. They are highly motivated, and professional. The Manual of Traffic Controls for Construction and Maintenance Work Zones is the basic standard that provides guidance for flagger conduct, skills, and the science they use. This program includes information about equipment, flagging position, flagging situations, procedures, and proper conduct.

Flammable Liquids - Canada Interactive Online Training [E] [2026]

This training covers flammable liquid safety, hazard recognition, safe handling, storage practices, and emergency response procedures.

Flammable Liquids Safety Streaming Interactive Online Training [E] [2005]

Flammables & Combustibles Online Interactive Training [E] [2008]

Flight of the Buffalo Interactive Online Training [E] [1997]

Explore leadership lessons from the Blue Angels, F-18 capabilities, intensive care, empowering employees, and customer focus.

FMCSA Safety: Cargo Securement Interactive Online Training [E,S] [2025]

Learn the basic rules for securing cargo so that it doesn't pose a safety hazard while being transported.

FMCSR Motor Carrier Compliance General Applicability and Recordkeeping Online Course [E]

This course, developed in conjunction with the experts from the Transportation Safety Institute (TSI) of the U.S. Department of Transportation (DOT), outlines the circumstances under which an employer, employee or commercial motor vehicle is subject to the Federal Motor Carrier Safety Regulations.

Food Safety: Good Manufacturing Practices Interactive Online Training [E,S] [2025]

This training discusses good manufacturing practices in food production and how the FDA regulates the food industry.

Food Safety: Safe Food Handling Interactive Online Training [E,S] [2025]

This training discusses safe food handling practices as outlined by the FDA and USDA.

Food Safety: USDA Top 9 Allergens Interactive Online Training [E,S] [2025]

This training discusses the top nine food allergens and FDA regulations for labeling and preventing cross-contamination.

Food Service Safety and Sanitation (Universities) Online Training [E] [2010]

When a food facility is given a satisfactory rating, it means on the day the health inspector visited, the establishment passed the requirements. It happens frequently that salmonella causes people to get sick. Food sanitation requires your attention if you work in the food industry or you cook at home. This program is designed to help reduce the risk of foodborne illnesses and other related diseases.

Forklift Safety: Certify and Comply Interactive Online Training [E,S] [2025]

Learn the safe operation of industrial forklifts. Cover essential skills, regulations, and best practices for forklift operators.

Forklift Safety: Dynamics and Balance Interactive Online Training [E,S] [2023]

Enhance forklift safety by mastering stability principles, optimal load distribution, and heightened situational awareness.

Forklift Safety: Fueling Process Interactive Online Training [E,S] [2026]

This training teaches you how to master LPG physical hazards, safe tank swap sequences, and OSHA storage compliance rules.

Forklift Safety: Inspections and Safe Operation Interactive Online Training [E,S] [2026]

Master the "Ground Up" inspection and operational checks to keep your forkliftâ€”and your crewâ€”running safely.

Forklift Safety: Rough Terrain Interactive Online Training [E,S] [2025]

Learn OSHA standards for inspection, safe travel on uneven ground, load handling, and tip-over avoidance.

Forklifts: Pedestrian Safety Interactive Online Training [E,S] [2023]

Forklift Safety 101. Pedestrians and forklift operators need to remain aware of their surroundings to prevent accidents.

Front End Loader Safety Online Training [E,S] [2009]

Front-End Loader Safety program will concentrate on the basic safe operations for the standard front-end loader. As an operator, you are a skilled professional who is responsible for an expensive piece of equipment, as well as the safety of those around you. You should not operate the front-end loader unless you have been fully trained and authorized by your organization.

General Health & Safety Training Package Interactive Online Training [E]

Take control of workplace injuries and illnesses with the right health and safety training.

General Safety: Icy Conditions Interactive Online Training [E,S] [2025]

This training discusses the hazards, consequences, and prevention techniques for walking in icy and snowy conditions.

General Safety: Pedestrian Hazards Interactive Online Training [E,S] [2025]

This training discusses the general and hazard-specific safety information for pedestrians in the workplace.

General Safety: Safe Driving Basics Interactive Online Training [E,S] [2023]

Drive with confidence, caution, and care. Learn practical guidelines to ensure your well-being and create safer roads for all.

General Safety: Vehicle Handling at the Dealership Interactive Online Training [E,S] [2026]

Master safe vehicle handling and lot safety to protect yourself, your coworkers, and your dealership's inventory.

Great Minds on Respect, Tolerance and Diversity Interactive Online Training [E] [2011]

Explore wisdom on respect, tolerance, and diversity from historical figures like Gandhi in this enlightening training.

Ground Fault Circuit Interrupter (GFCI) Online Training [E,S] [2008]

Insulation and grounding are two recognized means of preventing injury during electrical equipment operation. Grounding may be achieved through the use of direct connection to a known ground such as a metal cold water pipe. Electrical safety is much more than plugging your equipment into a receptacle and beginning work. This program focuses on the safe use of GFCIs.

Hand and Power Tools: Best Practices Interactive Online Training [E,S] [2024]

This training will help identify common safety concerns associated with the use of hand and power tools and how to mitigate these issues.

Hand and Power Tools: Chainsaw Safety Interactive Online Training [E,S] [2025]

This training discusses the proper operation and handling of chainsaws, including common hazards and how to avoid them.

Hand and Power Tools: Reciprocating Saw Safety Interactive Online Training [E,S] [2025]

In this training, you'll learn best practices for safely operating and maintaining a reciprocating saw.

Hand Injuries - Gory Story (PPE) Interactive Online Training [E] [2005]

Learn about hand protection & prevent gory incidents.

Hand Safety: Construction Safe Work Practices Interactive Online Training [E,S] [2024]

Prioritize hand safety, prevent workplace injuries, and enhance safe work practices.

Hand Safety: General Safe Work Practices Interactive Online Training [E,S] [2024]

Prioritize hand safety, prevent workplace injuries, and enhance safe work practices.

Hand, Wrist, and Finger Safety in Industrial Workplaces Interactive Online Training [E] [2026]

Prevent hand injuries with OSHA-compliant training on hazards, PPE, and safe work practices.

Handling Budgets: Your Guide to Financial Mastery Interactive Online Training [E,S] [2025]

This course covers budget planning, spending control, and resource allocation for effective management.

Handling Emergencies Interactive Online Training [E] [2013]

Handling Emergencies training video teaches professional security officers how to respond to incidents, including workplace violence, in the facilities that they protect. They must take control, activate agreed upon emergency procedures and take steps to prevent further harm.

Harassment in California: The Protected Groups Interactive Online Training [E,S] [2017]

Understand the Fair Employment and Housing Act's protections against harassment and discrimination.

Harassment Prevention Made Simple for Managers Interactive Online Training [E] [2026]

Manager training on preventing workplace harassment, legal compliance, and proper response to complaints.

Hazard Communication: Container Labeling, Transportation, and Storage Interactive Online Training [E,S] [2026]

This training teaches you how to master DOT hazard classes, placarding, and OSHA storage rules to safely handle hazardous materials.

Hazard Communication: GHS Labeling Requirements Interactive Online Training [E,S] [2026]

Learn to read, interpret, and apply GHS labeling standards to ensure workplace safety and OSHA compliance.

Hazard Communication: GHS Safety Data Sheets Interactive Online Training [E,S] [2026]

This training covers GHS standards, the 16 SDS sections, and employer duties to ensure workplace chemical safety.

Hazard Identification: Recognizing Hazards Interactive Online Training [E,S] [2023]

This course will help you recognize common workplace hazards and explain procedures followed to prevent and report incidents.

Hazardous Materials and Spill Response â€“ Canada Interactive Online Training [E] [2026]

Learn WHMIS standards, safe handling, and spill response to manage hazardous materials in Canada safely.

Hazardous Materials: Hazard Communication and Spill Containment Interactive Online Training [E,S] [2026]

This training builds "Chemical Intelligence" to decode labels, use PPE, and master the 3 C's of spill containment.

Hazardous Waste Generators SQG Interactive Online Training [E] [2014]

Become competent in small quantity generation hazwaste identification, generation, preparedness, and related processes.

Hazardous Waste: Large Quantity Generators (LQG) Interactive Online Training [E,S] [2026]

Master EPA RCRA standards for LQGs to prevent spills, ensure 90-day compliance, and protect your facility and community.

Hazardous Waste: Universal Waste Protocols Interactive Online Training [E,S] [2026]

This training builds the expertise to safely identify, label, and manage Universal Waste while maintaining EPA compliance.

HAZCOM: In The Know Interactive Online Training [E,S] [2026]

This training covers OSHA Hazard Communication, teaching employees to understand chemical hazards, read Safety Data Sheets, and handle substances safely.

HAZWOPER 40 Package (Spanish) Interactive Online Training [S]

La capacitaciÃ³n HAZWOPER es indispensable para su equipo si trabaja con sustancias peligrosas y responde a emergencias. Seamos realistas: OSHA se toma muy en serio los requisitos, y estos entornos son de gran importancia. Una capacitaciÃ³n adecuada no solo es importante, sino que puede ser crucial. El paquete de cursos individuales HAZWOPER 40 brinda a su personal los conocimientos necesarios para reconocer, responder y controlar materiales peligrosos como profesionales. ObtendrÃi 16 cursos interactivos, material imprimible, certificaciones y acceso a WAVE, el excelente software de EHS de Atlantic Training. Â¿Este paquete? Se trata de mantener a su equipo protegido, preparado y en cumplimiento normativo.

HAZWOPER 40 Package Interactive Online Training [E]

HAZWOPER training is a must-have for your crew if they're dealing with hazardous substances and emergency response. Let's face it: OSHA's serious about the requirements, and these environments are high stakes. Proper training isn't just important, it can be a lifesaver. The HAZWOPER 40 Individual Course Package gives your workforce the know-how to recognize, respond to, and control hazardous materials like pros. You get 16 interactive courses, printable goodies, certifications, and access to WAVE, Atlantic Training's awesome EHS software. This package? It's all about keeping your team protected, prepped, and compliant.

HAZWOPER Awareness: The Basics Interactive Online Training [E,S] [2024]

This course provides an overview of OSHA's HAZWOPER standard and its requirements.

HAZWOPER Fire Safety Training: Prevention and Response Interactive Online Training [E,S] [2026]

Learn to recognize fire hazards, control ignition sources, and respond to emergencies in hazardous waste operations.

HAZWOPER Package Interactive Online Training [E]

So, you want to be a HAZWOPER whiz? This package is your secret weapon. It's packed with everything you need to conquer compliance, but even superheroes need backup sometimes.

HAZWOPER Safety: Administrative, Engineering Controls and Work Practices Interactive Online Training [E,S] [2026]

This training covers HAZWOPER hazard mitigation using the Hierarchy of Controls to reduce exposure to hazardous workplace substances.

HAZWOPER Safety: Decontamination and Best Practices Interactive Online Training [E,S] [2024]

This course explains decontamination methods and best practices on how to control exposure to hazardous waste.

HAZWOPER Safety: Electrical Safety Interactive Online Training [E,S] [2026]

This training covers identifying critical electrical hazards, enforcing OSHA protocols, and mastering energy isolation.

HAZWOPER Safety: Procedures, Monitoring, and Surveillance Interactive Online Training [E,S] [2024]

Learn about monitoring procedures, equipment, and medical surveillance to ensure workplace safety and compliance.

HAZWOPER Safety: Responding to Emergencies Interactive Online Training [E,S] [2024]

HAZWOPER Safety: Responding to Emergencies helps you better understand the nature of emergencies, particularly when handling any risks to the public.

HAZWOPER Safety: Site Safety Interactive Online Training [E,S] [2026]

This training covers HAZWOPER site evaluations, hazard controls, PPE levels, and continuous exposure monitoring.

HAZWOPER: NFPA HazMat Labeling Information Interactive Training [E] [2009]

The National Fire Protection Association (N.F.P.A.) system is used for identifying hazardous material containers. The N.F.P.A. method of labeling is designed to aid firefighters. It allows them to quickly identify hazards. This program explains the coding of the N.F.P.A. system.

Healthcare Training Package Interactive Online Training [E]

Protect your healthcare staff and create a safer workplace with essential hazard training.

Hearing Conservation - Canada Interactive Online Training [E] [2026]

This training teaches you how to control noise hazards, use PPE, and prevent permanent occupational hearing loss.

Hearing Protection: Noise Safety and Loss Prevention Interactive Online Training [E,S] [2023]

When exposed to loud or constant noise, you'll begin to damage the hair cells in your cochlea. This damage means that sound can't be transmitted effectively to your brain, and you develop hearing loss. While this is pretty technical information, it helps to understand what you are protecting.

Heat Stress: Employee Safety in Construction Interactive Online Training [E,S] [2023]

In this training designed for construction workers, you will identify common risk factors of environmental heat and bodily overheating, learn the main dangers of heat exposure, and will explore safe work practices. Staying safe during hot, humid, or physically demanding tasks first involves recognizing potential hazards, unique physiological considerations, and workplace conditions.

Heat Stress: Employee Safety in HAZWOPER Interactive Online Training [E,S] [2026]

This training covers managing hazardous waste operation heat strain, navigating OSHA enforcement mandates, and executing emergency rapid-cooling protocols.

Heat Stress: Employee Safety Interactive Online Training [E,S] [2026]

This training covers OSHA's heat standards, body acclimatization, and life-saving "Water, Rest, Shade" protocols.

Heavy Equipment (Construction) Online Course [E]

As a construction worker, you may encounter heavy equipment at the worksite. You may even operate heavy equipment. The equipment can save a lot of time, but it also introduces many hazards; this type of equipment can cause injuries, and even deaths, at construction worksites.
By following the safety rules for working with or near heavy equipment, you can avoid injuries. You will learn how to recognize and use the appropriate signs, signals, and barricades, the rules for safe operation of mechanized equipment, and the key function of roll-over protective structures. You can be safe when working with or near heavy equipment.

Heavy Equipment Operation: Backhoe Loaders Interactive Online Training [E,S] [2026]

This training builds "Operator Intelligence" to master backhoe safety, stability, and site awareness.

Heavy Equipment Operation: Front-End Loader Safety Interactive Online Training [E,S] [2026]

Training teaches safe inspection, load handling, and operation of front-end loaders to prevent worksite incidents.

Heavy Equipment Operation: Skid Steer Safety Interactive Online Training [E,S] [2026]

Master skid steer safety, focusing on stable operation, hazard awareness, and essential maintenance to prevent site accidents.

Heavy Truck Braking System And Braking Techniques Interactive Online Training [E] [2008]

Master braking systems & techniques for safe heavy truck driving.

Hexavalent Chromium Employee Online Interactive Training [E,S]

Hexavalent chromium is essential to a number of industrial applications: chromate pigments are used in dyes, ink and plastics, chromic acid is used in chrome plating and chromates are used to prevent corrosion in paints and other coatings. While these compounds can be very beneficial, they can also be harmful or lethal to those employees exposed to them. This program discusses the safe work practices these workers must follow to avoid exposures to this hazardous substance.

High Blood Pressure Online Interactive Training [E]

Blood pressure is the force of blood against your artery walls as it circulates through your body after being pumped by the heart. Blood pressure normally rises and falls throughout the day, but can cause health problems if it remains high for a long time. High blood pressure can lead to many health issues, including heart disease and stroke which are leading causes of death in the United States.
Most of the time, the effects of high blood pressure are "silent" meaning you may feel no symptoms. That's why people can have high blood pressure and not even know it. In fact, it's a common health problem as 1 in 3 Americans have high blood pressure.

HIPAA: Protections and Compliance Interactive Online Training [E,S] [2022]

To get quality healthcare, people should not have to sacrifice the privacy or security of their personal health information. The set of regulations known as "HIPAA" ensures that private patient data remains private, but the laws can seem complex, and the penalties for non-compliance can be costly.

Hospitality Customer Service Online Training [E] [2009]

As an associate, you are the key to the company's success. Each associate makes a difference, no matter what part of the facility you work. Treating customers with respect is expected. This program discusses the general accepted customer service standards.

Hot Work Safety: Welding, Cutting, and Brazing Interactive Online Training [E,S] [2024]

Learn proper welding, cutting, and brazing practices to prevent hazards and ensure workplace safety.

Hours Of Service For Property Carrying Interactive Online Training [E]

Hours of Service For Property Carrying Vehicles Details
The Hours of Service regulation that was effective October 1, 2005 but is expected to be amended. The current rule was challenged and the U.S. Court of Appeal for the D.C. Circuit ruled the Federal Motor Carrier Safety Administration (FMCSA) did not adequately consider the impact of this rule on the driver's health. This program defines 395 regulation and application.

How To Communicate Effectively, Team Building, Getting Control of Your Time [E]

How To Fit Test Respirators Online Training [E] [2008]

There are a variety of gases, fumes, vapors, dusts, mists, and other potentially hazardous materials in many industries. Protection from health hazards is a goal of all employers and employees. This program will look at respiratory protection and how you can protect your health against hazardous materials.

Human Resources Compliance Package Interactive Online Training [E]

Equip your HR team with essential tools to foster a safer, more inclusive, and high-performing workplace.

Human Trafficking Awareness for Employees Interactive Online Training [E] [2026]

Human trafficking awareness training on recognizing warning signs, responding safely, and reporting potential exploitation.

Hydrogen Sulfide Employee Training Interactive Online Training [E] [2010]

Employees can work safely in areas where the potential of hydrogen sulfide exists by following their organization's Hydrogen Sulfide Contingency Plan, knowing how and when to use respiratory protection and knowing the meaning of their facility's hydrogen sulfide warning sounds and signals. This program reviews these three key issues and many other precautions that protect employees from H2S exposures when followed.

Hydrogen Sulfide Employee Training Interactive Training [E,S]

This program reviews these three key issues and many other precautions that protect employees from H2S exposures when followed.

Hydrogen Sulfide Safety by Efilm Interactive Training [E] [2005]

Valuable training for petroleum and other industrial personnel who may encounter hydrogen sulfide in their work, as well as for emergency responders.

I Can't Get No Traction Interactive Training [E]

This four-minute, upbeat music video spotlights common slip, trip and fall hazards in unique and entertaining fashion. Inspired by the Rolling Stones tune, "Satisfaction," the custom lyrics to this music video provide a warning to those workers who move about the workplace in an unsafe manner. The program features a variety of realistic slip, trip and fall stunts that teach memorable lessons on distracted walking, running, poor housekeeping, improper ladder use, spills, moving equipment and wearing improper footwear.

I Chose to Look the Other Way: Three Stories of Workplace Safety Interactive Training [E,S] [2014]

In this dramatic telling of the popular "I Chose To Look The Other Way," viewers will witness examples of three common scenarios of workers not speaking up about safety. The storylines feature a failure to follow lockout/tagout, an employee neglecting to wear PPE and a worker choosing not to wear fall protection as the primary causes of incidents that result in fatalities; however, your employees will learn that the root cause of each was a reluctance to speak up. They will be convinced that speaking up about unsafe acts is critical in the prevention of workplace injuries. Some of the other safety concerns addressed in the program include supervisors, rushing, habits, shift work, and intimidation.

IATA Certification (Transporting by Air) - Canada Interactive Online Training [E] [2026]

This training covers air transport of dangerous goods, including classification, packaging, labeling, documentation, and pre-shipment safety requirements.

IATA Certification (Transporting by Air) - US Interactive Online Training [E,S] [2026]

This training covers U.S. air transport of dangerous goods, including classification, packaging, labeling, documentation, and shipment safety reviews.

Incident Investigation and Reporting - Canada Interactive Online Training [E] [2026]

This course covers Canadian workplace incident investigations, focusing on fact-finding, root causes, corrective actions, and regulatory requirements across jurisdictions.

Incident Investigation: Root Cause to Corrective Action Interactive Online Training [E,S] [2023]

OSHA emphasizes reporting and investigating work incidents to uncover root causes and prevent future ones. This course explores proactive safety measures.

Inclusive Leadership Made Simple Interactive Online Training [E] [2026]

Provides organizations with the knowledge and tools needed to move beyond awareness and build inclusive leadership practices.

Industrial Ergonomics for Canada Interactive Online Training [E,S] [2026]

This training covers identifying MSD risk factors, implementing practical controls, and encouraging early hazard reporting.

Industrial Ergonomics: Workplace Design and Safety Interactive Online Training [E,S] [2023]

Industrial Fire Safety Training: Prevention and Response Interactive Online Training [E,S] [2023]

Industrial environments present unique fire safety challenges. This course on industrial fire safety training, prevention, and response is designed to equip you and your colleagues with the knowledge and tools needed to navigate these challenges with confidence. This training is an invaluable resource for individuals working in industrial settings as well as those responsible for maintaining workplace safety.

Industrial Hygiene: Best Practices Interactive Online Training [E,S] [2024]

Learn how to keep yourself safe from work-related injuries and illnesses by practicing industrial hygiene.

Infectious Disease: Control and Prevention Interactive Online Training [E,S] [2023]

This course introduces what causes infectious disease and the methods used to control and prevent them from spreading.

Insider Trading: It's Not Worth the Risk Interactive Online Training [E] [2015]

Unlock the secrets of insider trading with this course. Learn its definition, consequences, and how to stay compliant.

Intersections - Expect The Unexpected Interactive Online Training [E] [2008]

Be prepared for the unexpected. Learn how to safely navigate intersections.

Introduction to OSHA: General Industry and Construction Interactive Online Training [E,S] [2024]

This training will provide an introduction to OSHA's mission, standards, and covered rights and responsibilities.

IRS 8300 for Managers Interactive Online Training [E,S] [2025]

Training prepares managers to implement compliant cash-payment reporting over $10,000 to IRS and FinCEN, preventing costly legal penalties.

IRS Form 8300 for Employees Interactive Online Training [E,S] [2025]

Learn the RCR procedure for cash transactions over $10K to ensure federal compliance.

ISO 14001:2015 Introduction Interactive Online Training [E]

Learn how the ISO's EMS standards help your organization manage environmental issues and work towards sustainable development.

ISO 45001: The Basics Interactive Online Training [E,S] [2026]

This training introduces ISO 45001 and shows how organizations build structured systems for risk management, safety leadership, and continual improvement.

Janitorial Safety Training Package (Spanish) Interactive Online Training [S]

Desde resbalones y caÃ-das hasta peligros quÃ-micos, el personal de limpieza y custodia aprende los conceptos bÃisicos para mantenerse seguro en el trabajo.

Janitorial Safety Training Package Interactive Online Training [E]

From slips and falls to chemical hazards, janitorial and custodial staff learn the basics of staying safe at work!

Job Hazard Analysis â€“ Canada Interactive Online Training [E] [2026]

This training covers systematic hazard identification, job step breakdowns, and control selection under Canadian OHS laws.

Job Safety Analysis Online Interactive Safety Training [E] [2006]

Job Safety Analysis "Find It Before It Finds You" program provides the steps to be taken when performing a JSA. There are many tools which organizations use to help reduce and eliminate accidents and injuries. One of the more important tools is what we call the job safety analysis. It's been around for a long, long time. JSA or Job Safety Analysis is just fancy words for finding out potential job hazards and unsafe procedures so we can reduce accidents. In recent years, job hazard analysis has crept into the safety vocabulary as OSHA requires hazard assessments in many of their standards.

Jobsite Housekeeping: Workplace Safety Interactive Online Training [E,S] [2023]

In today's fast-paced work environment, it's easy to overlook the importance of job site housekeeping and its critical role in ensuring a positive, productive, and safe work environment. This workplace safety training course on job site housekeeping offers essential insights and practical strategies to create a culture of safety and cleanliness, empowering participants to contribute to a safer and more efficient workplace.

Just A Second Ago: The Brad Livingston Story Interactive Training [E,S] [2009]

When Brad Livingston decided to violate procedures, participate in a shortcut and condone the unsafe actions of a co-worker, his world was literally blown apart in a matter of seconds. As Brad was engulfed in flames, he fully expected to die, but thoughts of his three young daughters inspired him to fight for his life.

Killer Bees, Wasps, and Spiders Interactive Online Training [E,S]

Killer Bees, Wasps, and Spiders program includes on-camera interviews with Dennis Johnson, Bee Expert, Brent Batchelor, Bexar County Extension Agent, and Dr. Robert C, Rosenberg who share their expertise on this subject. Killer Bees, Wasps, and Spiders is the title of the program, but it's more than that. It's information and the proper protection to make sure you're prepared for an encounter with bees, wasps, and spiders. The most important fact to take with you today is not to panic when you're faced with a potential bite or sting.There's no need to panic because death rarely happens and armed with factual information, the chances are even less likely a death or serious injury will occur. To help reduce the risk of bees, wasps and spiders bites or stings, this program will provide a better understanding and prevention techniques when you are faced with a potential bite.

Knife Safety In The Workplace Online Interactive Training [E,S]

While the blade of a knife may be sharp, it's not very bright. It cannot tell the difference between cutting work material or slicing a hand or finger. That's why your employees must stay sharp, always keeping their minds on safety when using industrial knives. This program discusses common industrial knife safety rules and explains why a deep cut or laceration to a worker's hand can be so damaging.

Laboratory Safety: Compressed Gas Cylinders Interactive Online Training [E,S] [2024]

This training discusses compressed gases' types, hazards, storage, and safety measures, including cryogenic liquids.

Laboratory Safety: Electrical Safety Interactive Online Training [E,S] [2024]

This course provides essential knowledge and guidelines for ensuring electrical safety in a laboratory setting.

Laboratory Safety: Emergency Response Interactive Online Training [E,S] [2024]

Learn how to prevent and properly respond to biological, chemical, and radioactive emergencies while working in the lab.

Laboratory Safety: Exposure Prevention and Response Interactive Online Training [E,S] [2024]

This course ensures that laboratory personnel are well-informed about the proper use of fume hoods and are prepared to respond effectively to any exposure risks or emergencies that may arise.

Laboratory Safety: Material Safety Interactive Online Training [E,S] [2024]

Laboratory Safety helps introduce hazardous materials and their use in laboratories, storage, and around the workplace to minimize risks.

Laboratory Safety: Safe Work Practices Interactive Online Training [E,S] [2024]

The lab can be dangerous if you aren't careful, so let's stay safe by covering the safe work practices you need!

Ladder Safety: Construction Sites Interactive Online Training [E,S] [2024]

Maximize ladder safety on construction sites with OSHA-guided practices, proper use, and maintenance techniques.

Landscape Maintenance Safety (Public Agency) Interactive Online Training [E] [2006]

Landscape Maintenance Safety (Public Agency) Details
Landscape workers have a lot of responsibility maintaining parks, highways and other areas that provide enjoyment for a large number of people. They are also responsible for fire safety in these areas. The equipment, chemicals and techniques used can be hazardous. This program focuses on safety awareness in landscape maintenance.

Lead Exposure: Prevention and Response Interactive Online Training [E,S] [2024]

This course will help you to identify sources of lead, who's most at risk, and the regulations in place to protect you.

Leadership Development: New Supervisor Interactive Online Training [E,S] [2022]

Reflect on past leadership experiences. Identify traits to imitate and avoid. Learn about leadership styles and how to apply them effectively. What kind of leader do you want to be?

Leading Indicators: See & Shape Success Interactive Online Training [E,S] [2025]

Master leading indicators to proactively predict and shape workplace success, safety, and performance.

Legal E-Mail & Text Messaging Interactive Online Training [E] [2014]

This video highlights the risks of improper business email and text use and offers guidelines to avoid legal issues.

Legal Social Media at Work Employee Version Interactive Online Training [E] [2014]

Learn the do's and don'ts of social media in the workplace to avoid potential risks and ensure responsible usage.

Lift Safety in the Automotive Industry Interactive Online Training [E,S] [2025]

Training teaches lift inspection, operation, and maintenance, giving automotive workers essential skills to safely raise and service vehicles.

Lifting Patients From Chairs Interactive Online Training [E] [2007]

Lifting Patients From Chairs Details
Each patient and situation for moving a patient is unique. You may have to move a patient from a bed to a wheelchair or from a wheelchair to a bathtub. Each task is different and each one has a specific way in which it can be done safely and correctly. This video shows how to lift a patient using safe techniques.

Loading Docks: Safe Work Practices Interactive Online Training [E,S] [2023]

Loading docks are a high-risk area and should have unique solutions to ensure the safety of all personnel. This includes delivery drivers, material and product handlers, equipment operators, and any other person who enters or crosses the area. From preventing falls or back injuries through safe work practices to installing protection barriers, safety directors and supervisors should take preventative measures to ensure their loading docks meet OSHA standards. Ensuring safe practices, such as using wheel chocks and locking systems, can prevent serious, and even fatal accidents. This way, everyone gets to go home after completing a safe and productive workday.

LockOut Tagout for Employees - Canada Interactive Online Training [E]

Being around energy is an every day part of our lives, and an important part of our workplace operations. High pressure steam, electricity, hydraulic and pneumatic systems, even the force of gravity are common forms of energy used to power our machines and processes. While energy is obviously useful, it can also be dangerous. Understanding how to properly control hazardous energy is one of the keys to workplace safety.

Lockout Tagout: Secure Safely Interactive Online Training [E,S] [2024]

This training identifies procedures in the lockout/tagout process for preventing re-energization when servicing machinery.

Lockout/Tagout - Canada Interactive Online Training [E] [2026]

This training details isolating hazardous energy, securing lockouts, and verifying controls to protect Canadian workers.

Lockout/Tagout for Affected Workers Interactive Online Training [E,S] [2023]

Lockout/tagout awareness training for affected workers to prevent hazardous energy injuries.

Lockout/Tagout for Authorized Workers Interactive Online Training [E,S] [2023]

Learn safe lockout/tagout procedures required by OSHA for authorized employees.

Machine Guarding: Safe Work Practices Interactive Online Training [E,S] [2022]

Machines or power tools can be a hazard. Learn how to identify these hazards and safeguard against them in this course.

Maintenance Training Package (Spanish) Interactive Online Training [S]

Prepare a su equipo de mantenimiento con las habilidades adecuadas para reducir el tiempo de inactividad y mantener las operaciones funcionando sin problemas.

Maintenance Training Package Interactive Online Training [E]

Prepare your maintenance team with the proper skills to reduce downtime and keep operations running smoothly.

Making Safety Work: Overview of Workplace Safety & Responsibilities Online Training [E,S] [2013]

This program provides an overview of common workplace hazards and how they are to be controlled while also demonstrating the importance of each employee's commitment and participation in the safety effort. Viewers will also see how easily injuries can occur when employees decide not to take responsibility for their safety.

Manager / Supervisor Training Package (Spanish) Interactive Online Training [S]

Empodere a su equipo de liderazgo con las habilidades para inspirar, liderar y crear cambios significativos.

Manager / Supervisor Training Package Interactive Online Training [E]

Empower your leadership team with the skills to inspire, lead, and create meaningful change.

Managing Emotionally Charged Situations Interactive Online Training [E,S] [2025]

This course provides techniques for de-escalating tense situations and fostering a resilient work environment to navigate workplace conflict.

Managing Safety and Health Online Course [E]

All levels of an organization, from the top management team through the entire organization of the work force, should actively participate in their Safety and Health Program. The priorities in a good Safety and Health culture include positive attitudes, safe behaviors, accountability, and continuous improvement. The resulting benefits of this type of safety culture can be seen in fewer risky behaviors, reduced numbers of accidents and incidents, better protection for employees' health and safety, and an improved financial bottom-line.

Manual Pallet Jacks Safety: Best Practices Interactive Online Training [E,S] [2025]

This training discusses the operation of manual pallet jacks, including maintenance, safety guidelines, and procedures.

Mark Standifer's Electrical Safety Briefing Interactive Online Training [E,S]

As a survivor of an arc flash incident, Mark knows the pain and suffering associated with electrical and arc flash injuries. In this live presentation, he stresses the importance of thinking about what we are doing and being aware of all shock and burn hazards when performing electrical job tasks. Mark also makes the point that we must always wear the PPE and FR rated clothing required by the NFPA 70E to protect ourselves from any mistakes that we may make.

Mastering Feedback: Giving & Receiving for Growth Interactive Online Training [E,S] [2025]

This course teaches you the essential skill of giving and receiving feedback as a critical fuel for growth.

Mastering Focus: Overcoming Distractions at Work Interactive Online Training [E,S] [2025]

This training will show you how to build a fortress of focus, conquer interruptions, and reclaim your productivity at work.

Material Handling Safety Training: Moving and Storage Interactive Online Training [E,S] [2023]

Do you want to learn how to handle materials safely like a pro? Then this training is for you. This course is a total game-changer for anyone involved in moving and storing materials. So let's get this handled!

Material Handling: Proper Lifting Techniques Interactive Online Training [E,S] [2023]

Master safe lifting techniques to prevent back injuries, including planning, executing lifts, and responding to incidents.

Mental Health: Awareness and Support in Construction Interactive Online Training [E,S] [2025]

This course gives you the tools to take charge of your mental well-being and look out for your crew.

Mental Health: Awareness and Support Interactive Online Training [E,S] [2023]

Learn how to prioritize mental health in the workplace by building supportive cultures and enhancing emotional well-being.

MEWPs: Safe Operation of Aerial Lifts Interactive Online Training [E,S] [2024]

This course will equip you with the knowledge and skills to identify, assess, and mitigate the risks of operating MEWPs.

MEWPs: Safe Operation of Boom Lifts Interactive Online Training [E,S] [2024]

This training discusses best practices in using boom lifts, including general operation guidelines, hazards, and precautions.

MEWPs: Safe Operation of Scissor Lifts Interactive Online Training [E,S] [2024]

This training discusses best practices in using scissor lifts, including types of lifts, dangers, and precautions.

Micro-inequities, Micro-aggressions, and Micro-affirmations in the Workplace Interactive Online Training [E] [2023]

Learn about micro-inequities and micro-aggressions, their impact, and how to combat them with micro-affirmations.

MSHA New Miner Package (Part 46 24-Hour) Interactive Online Training [E]

Complete 24-hour MSHA Part 46 New Miner training for safe, compliant mining.

MSHA PART 46 8-hour Surface Mining Refresher Interactive Online Training [E]

Stay compliant and safe with essential MSHA Part 46 refresher training for experienced surface miners.

MSHA Part 46 New Miner & Newly Hired Experienced Miner Interactive Online Training [E]

This course will provide a general overview of the Mine Safety and Health Administration (MSHA)'s surface mining regulations under Part 46.

My Precious Eyes - The Gory Story Interactive Online Training [E] [2005]

My Precious Eyes - The Gory Story Details
My Precious Eyes - The Gory Storyprogram will increase your safety awareness. This program focuses on increasing safety awareness on one of the most basic topics in the safety industry - eye injury prevention. We take a look at what contributes to eye injuries, how they can be prevented, better training and education. This film will make a lasting impression since we will show you things you need to know about your precious eyes.

Narcan Training: Naloxone Administration - New York (NY) Interactive Online Training [E,S] [2026]

This training covers recognizing opioid overdoses, administering Narcan, and meeting NY workplace first-aid standards.

Near Misses: Prevention and Response Interactive Online Training [E,S] [2025]

This training discusses near-miss incidents in the workplace and how they can be used to prevent future accidents.

Non-Emergency HazMat Spill Response "Spills and Skills" Interactive Online Training [E] [2014]

Learn how to safely manage hazardous material spills and determine the right response for any hazmat incident.

Office Safety: Hazards and Prevention Interactive Online Training [E,S] [2024]

This training will help you learn the potential hazards in an office workplace and prevention methods.

Office Training Safety Package Interactive Online Training [E]

Plenty of hazards are present in office work environments. This training package deep dives into safety for office workers.

Operating A Telehandler Safely interactive Online Training [E] [2011]

The telehandler can lift up to 10,000 pounds and extend outwards 30 to 40 feet. They can tilt the load lift or right to balance the load equally or to align the load to where they can precisely set down or dump the load. The telehandler operator must be competent in

Operating Order Selectors Safely Interactive Training [E,S]

This program examines some common hazards posed by the operation of order selectors and how to control these hazards through safe operating practices.

Operations Security and Insider Threat Awareness Interactive Online Training [E] [2026]

Learn to protect critical operations, recognize insider threat indicators, and report security concerns safely and effectively.

OPSEC Awareness Interactive Online Training [E] [2026]

This training covers managing OPSEC risks, identifying critical information indicators, and enforcing countermeasure compliance.

Orientation: Safety in the Workplace Interactive Online Training [E,S] [2022]

Teach new employees Federal law requirements for a safe workplace and OSHA-recognized hazards that cause harm to employees.

OSH Act: Whistleblower Protection Interactive Online Training [E,S] [2026]

Master your rights under Section 11(c) to report hazards and stop retaliation before the 30-day clock runs out.

OSHA 10 - Construction Training Package Interactive Online Training [E]

Build a safer and more compliant construction site with essential OSHA 10 training for your workforce.

OSHA 10 Hr Construction (Spanish) Interactive Online Training [S]

Cree un entorno de construcciÃ³n mÃ¡s seguro y que cumpla con las normas mediante la capacitaciÃ³n esencial OSHA 10 para su personal.

OSHA 10 Hr General (Spanish) Interactive Online Training [S]

Garantice la seguridad en el trabajo con la capacitaciÃ³n general de 10 horas de OSHA. Cumpla con los requisitos de cumplimiento, prevenga accidentes y cumpla con los objetivos de OSHA.

OSHA 10 Hr General Interactive Online Training [E]

Ensure workplace safety with OSHA 10 Hour General training. Meet compliance needs and prevent accidents and OSHA fines.

OSHA 30 - Construction Training Package (Spanish) Interactive Online Training [S]

Equipe a su fuerza laboral de construcciÃ³n con capacitaciÃ³n esencial en seguridad OSHA 30 para construir un lugar de trabajo que cumpla con las normas y estÃ© libre de accidentes.

OSHA 30 - Construction Training Package Interactive Online Training [E]

Equip your construction workforce with essential OSHA 30 safety training to build a compliant and accident-free worksite.

OSHA 30 - General Training Package (Spanish) Interactive Online Training [S]

Capacite a sus supervisores y gerentes con conocimientos esenciales de seguridad OSHA 30 para crear un lugar de trabajo mÃis seguro y con mayor cumplimiento.

OSHA 30 - General Training Package Interactive Online Training [E]

Empower your supervisors and managers with essential OSHA 30 safety knowledge to create a safer, more compliant workplace.

OSHA Access to Employee Exposure and Medical Records Interactive Online Training [E] [2025]

A comprehensive overview of OSHA 29 CFR 1910.1020 regarding the management and accessibility of workplace health data.

OSHA Regulations: General Recordkeeping Interactive Online Training [E,S] [2024]

Master OSHA's Recordkeeping Rules for workplace safety, including key forms, timelines, and reporting rights.

OSHA Regulations: Process Safety Management Interactive Online Training [E,S] [2025]

This course will help you understand the regulations that govern industries using hazardous chemicals in their processes.

OSHA Safety: Safety Champions Program (SCP) Interactive Online Training [E,S] [2026]

The OSHA Safety Champions Program guides leaders to build strong safety culture through core elements and quick improvement actions.

OSHA Top 10 Training Citations Package Interactive Online Training [E]

Protect your workforce and business from OSHA's most cited violations with this comprehensive training package.

OSHA's Hierarchy of Controls for Employees Interactive Online Training [E,S] [2026]

Learn to apply the five-level hierarchy to systematically eliminate workplace hazards and improve safety outcomes.

Overhead Pendant Hoist Safety (Machinery) Online Interactive Training [E,S] [2008]

Overhead Pendant Hoist Safety program will focus on overhead rail mounted hoists. Many organizations make use of overhead or also known as pendant hoists. This versatile equipment is typically used to safely maneuver heavy loads around shops, treatment plants, pump stations, and other locations. For the purpose of this short video, we will be focusing on overhead rail mounted hoists. Of these types of hoists, some of the most common operating systems are electric, pneumatic, and hand operated chain hoists.

Overhead Pendant Hoist Safety - Manufacturing Online Interactive Training [E,S] [2008]

The overhead pendant hoist is used to safely maneuver heave loads around shops, treatment plants, pump stations and other locations. This program will focus on overhead rail mounted hoists. These hoist operating systems are electric, pneumatic and hand-operated chain hoists.

Overhead Pendant Hoist Safety Online Interactive Training [E,S] [2008]

The overhead pendant hoist is used to safely maneuver heave loads around shops, treatment plants, pump stations and other locations. This program will focus on overhead rail mounted hoists. These hoist operating systems are electric, pneumatic and hand-operated chain hoists.

Pallet Safety: Handling, Lifting, and Hazard Prevention Interactive Online Training [E,S] [2026]

This training builds "Pallet Intelligence" to spot hazards, lift safely, and manage stacks like a seasoned warehouse pro.

Patient Care: Safe Handling Interactive Online Training [E,S] [2024]

This course explains how to start an SPH program and reviews patient handling hazards and proper transferring techniques.

Patient Decontamination Interactive Training by Efilm [E] [2007]

This course explains the importance of hospital decontamination plans for large numbers of casualties in the event of a major terrorist, hazmat or natural catastrophe resulting in contaminated patients. Without a plan, hospitals risk contamination of staff, patients and the facility. This program, which follows the Joint Commission's accreditation standards for decontamination and emergency planning, outlines the process of quickly mobilizing a hospital decon team. It is ideal for training new decon teams as well as for refresher training.

Performance Management: Mastering Reviews and Documentation Interactive Online Training [E,S] [2025]

This course helps you master performance management, create effective reviews, and understand the documentation's role in growth.

Pinch Points and Hand injuries for Oil and Gas Manufacturing Interactive Online Training [E,S] [2025]

This training discusses the dangers of pinch points and hand injuries, and how to prevent them in the oil and gas industry.

Pivoting to Virtual Events: Mastering the Art of Connection Interactive Online Training [E,S] [2025]

Learn essential strategies for impactful virtual events, connecting with audiences and conquering digital challenges.

Portable Fire Extinguishers - Canada Interactive Online Training [E] [2026]

This training covers Canadian fire extinguisher safety, fire classification, emergency decisions, P.A.S.S. use, and monthly inspection requirements.

Power Press Safety: Hazard Control and Safe Operation Interactive Online Training [E,S] [2025]

Learn to safely operate power presses and comply with essential OSHA regulations to prevent injury.

Powered Lift Truck Operator Safety â€“ Manitoba Interactive Online Training [E] [2026]

Learn essential safety, inspection, and operating procedures for Manitoba powered lift trucks to prevent worksite accidents.

PPE: Are You Covered Interactive Online Training [E,S] [2025]

This course covers PPE selection, use, and maintenance to minimize workplace injuries and ensure compliance.

PPE: Donning and Doffing Gloves Interactive Online Training [E,S] [2026]

This training teaches you how to master industrial glove protocols to protect your hands from severe workplace hazards.

PPE: Personal Protective Equipment - Canada Interactive Online Training [E] [2026]

This training covers CSA standards, WHMIS alignment, and practical control selection for Canadian PPE safety.

Preventing Burnout: Recognizing the Signs & Taking Action Interactive Online Training [E,S] [2025]

This course teaches you to identify and prevent burnout, offering strategies to improve your overall well-being.

Preventing Slips and Falls In Restaurants Online Interactive Training [E] [2009]

Preventing Slips and Falls In Restaurants Details
Slips and falls can occur in all industries. These accidents occur because people are not paying attention. This program will focus on the causes, prevention and behaviors.

Privacy Training Under the Federal Acquisition Regulation (FAR) Interactive Online Training [E,S] [2026]

Learn to handle PII and follow FAR 52.224-3 requirements for federal contracts, protecting data and public trust.

Process Improvement and Lean Thinking Interactive Online Training [E,S] [2025]

This course covers Lean Thinking principles & tools for process improvement & waste reduction.

Process Improvement: Managing Paper Flow Interactive Online Training [E,S] [2025]

Learn to identify federal records, protect personal privacy, and follow legal disposal standards for paper documents.

Product Development: Design, Strategy and Launch Interactive Online Training [E,S] [2024]

From concept to customer: Master the essential steps for researching, testing, and successfully launching your next product.

Project Management & Agile Methodologies Package Interactive Online Training [E]

Managing projects isn't just about timelines and task lists; it's about navigating shifting priorities, last-minute pivots, and the occasional "quick chat" that spirals into chaos. This training gives you the real tools to lead confidently, communicate clearly, and bring order to the workplace circus. Whether you're smoothing over team drama or streamlining messy workflows, you'll walk away with practical skills that actually work in real life, not just on a slide deck.

Project Management: Earned Value Management Interactive Online Training [E,S] [2025]

Master EVM to track project performance, manage budgets, and forecast outcomes, ensuring project goals are met efficiently.

Project Management: Fundamentals Interactive Online Training [E,S] [2024]

Master the core principles of project management: leading a team to achieve your goals within a given set of constraints.

Propane Safety Online Interactive Training [E] [2008]

This program provides basic knowledge of proper cylinder refueling operations by vehicle operators with an emphasis on safety.

Proper Safety Techniques for Operating a Forklift Dump Hopper Interactive Online Training [E,S] [2026]

Learn to safely inspect, secure, and operate forklift dump hoppers to prevent tip-overs and accidental releases.

Public Speaking: Presenting Yourself Interactive Online Training [E,S] [2025]

Master the art of authentic public speaking, transforming nerves into confidence and connecting deeply with any audience.

Quality Management: Assurance and Control Interactive Online Training [E,S] [2023]

In this course, you'll gain a foundational understanding of Quality Management, exploring the key concepts of Quality Assurance (QA) and Quality Control (QC) and how they work together to drive quality performance.

Radiation Safety (Universities) Interactive Training [E]

Radiation is a critical part of safety program. A Radiation Safety Plan includes the basics of training, engineering controls, personal protective equipment and work practices designed for protection. This program covers topics on radiation safety and how you can use this information to stay safe and healthy in your work environment.

Real Story About Hand Washing and Bacteria Interactive Online Training [E]

According to health experts, washing your hands reduces the spread of viruses and other organisms that cause disease.

This program covers the subjects of hand washing, sanitizing, gloves, clothing and bacteria. Melody Glave, training consultant, is featured in this film.

Real Story About Hand Washing and Bacteria Online Interactive Training [E] [2006]

According to health experts, washing your hands reduces the spread of viruses and other organisms that cause disease. This program covers the subjects of hand washing, sanitizing, gloves, clothing and bacteria. Melody Glave, training consultant, is featured in this film.

Rear Loader Safety and Operations Interactive Online Training [E] [2007]

Rear loaders are designed for speed of operation, safety and ease of loading. Rear loaders require a vehicle pre-trip safety and operational inspection, the same as other vehicles. The operator must have a good attitude about accident prevention and vehicle operating procedures. The program focuses on vehicle operation with emphasis on safety.

Reasonable Suspicion of Drug and Alcohol Abuse for Supervisors Interactive Online Training [E] [2026]

How to recognize, document, and respond appropriately when an employee may be impaired by drugs or alcohol in the workplace.

Reasonable Suspicion Training for Managers: Substance Abuse Testing Interactive Online Training [E,S] [2023]

Reasonable suspicion training for managers ensures supervisors understand their role and responsibility for initiating and carrying out the drug-free policy and program.

Red Flags Rule: Identity Theft Prevention for Employees Interactive Online Training [E,S] [2026]

Training teaches frontline employees to recognize identity theft red flags and take legally required actions to protect customer accounts.

Red Flags Rule: Identity Theft Prevention for Managers Interactive Online Training [E,S] [2026]

Managers must master the FTC Red Flags Rule to govern, assess risk, and oversee effective Identity Theft Prevention Programs.

Regulatory Compliance: Adverse Action Requirements Interactive Online Training [E,S] [2026]

Master the legal requirements for adverse action notices to ensure transparency and maintain regulatory compliance.

Remote Work: Success Strategies Interactive Online Training [E,S] [2023]

Struggling to disconnect from work while working from home? Learn strategies to create boundaries and work efficiently and safely remotely.

Resource Conservation and Recovery Act (RCRA) Safety Interactive Online Training [E,S] [2025]

This training discusses the background, regulations, and rules associated with the Resource Conservation and Recovery Act.

Respiratory Protection - Canada Interactive Online Training [E] [2026]

This training details identifying airborne hazards, selecting respirators, and verifying proper fits to protect Canadian workers.

Respiratory Protection: Employee Safety Interactive Online Training [E,S] [2023]

This training will help you navigate respiratory hazards, properly use respirators, and ensure safety under OSHA guidelines.

Respiratory Protection: Respirator Fit Test Interactive Online Training [E,S] [2026]

This training builds "Seal Intelligence" to master OSHA fit testing, daily checks, and respirator maintenance.

Rest Stop Routine Interactive Online Training [E] [2009]

Working in the trucking industry increases a person's risk for developing musculoskeletal problems and other health problems due to the long hours in the same sedentary position. The work posture required in this industry is forward head and hunched shoulders. This program offers various exercises for specific areas of the body that are affected by sitting for long periods of time in the same position.

Restaurant - Sanitation And Health Food Service Workers Interactive Online Training [E] [2006]

Sanitation And Health For Food Service Workers - Food borne illness is quite prevalent in the home, restaurants, hotels, retail establishments, even school cafeterias. Through someone's carelessness, micro-organisms were allowed to get on the food such as chicken, beef, pork, and a variety of other foods.

Retaliation: Itâ€™s Illegal Interactive Online Training [E,S] [2020]

Learn how to recognize, prevent, and address retaliation in the workplace, ensuring a safe, respectful environment.

Road Rage (Trucking) Interactive Online Training [E,S] [2007]

Learn coping strategies to avoid road rage incidents.

Roll Offs and Safety Operations Interactive Online Training [E] [2002]

Roll Offs and Safety Operations Details
Roll offs carry a large load and are a large part of business. They have the potential of causing serious injuries or property damage if not handled properly. It is important to continue improving safety awareness and accident prevention. This program covers the operation of roll offs with emphasis on safety.

Root Cause Analysis: Fixing Problems at Their Core Interactive Online Training [E,S] [2025]

Uncover the true origins of recurring issues, moving beyond symptoms to implement lasting solutions.

Rotating Machinery for Oil and Gas Manufacturing Interactive Online Training [E,S] [2026]

This course teaches safe operation of high-torque rotating machinery, covering nip point hazards, lockout/tagout, and proper guarding procedures.

Safe Backing Of Tractor Trailer Rigs Interactive Training [E] [2008]

Master safe techniques for backing tractor-trailers with confidence.

Safe Driving Practices for CMV Drivers [E]

This course, developed in conjunction with the experts from the Transportation Safety Institute (TSI) of the U.S. Department of Transportation (DOT), covers the Defensive Driving portion of the Federal Motor Carrier Safety Administration (FMCSA) Accident Countermeasures Manual. Employing defensive driving techniques makes every driver on the roadway safer. This course provides driving tips and maintenance checks to help CMV drivers use defensive driving techniques while operating CMVs.

Safe Driving: Defensive Driving Techniques Interactive Online Training [E,S] [2024]

Master situational awareness, speed management, and emergency preparedness for safe and stress-free driving.

Safe Use And Operation of Industrial Cranes - Canada Interactive Online Training [E] [2014]

Review essential safety rules and operating practices to help crane operators work safely and prevent serious accidents.

Safety 101: OSHAs Top 10 Interactive Online Training [E,S] [2022]

Whether your career philosophy is that you live to work, or if you work to live, your health and safety should never be sacrificed for productivity. Whatever your position â€“ laborer, supervisor, technician, safety officer, machine operator, or any other role â€“ you must become aware of the hazards involved in your work and the strategies required to ensure safe work and respond to emergencies. Every task comes with its own set of risks. Think about your work environment. What could go wrong?

Safety and The Supervisor Interactive Online Training [E] [2009]

Safety and the Supervisor program includes comments from experts in the field of safety. Emphasis is on the responsibility of the supervisor, counseling and accident investigation. As a supervisor, you are responsible for accident reports, safety training, making sure employees follow safety rules and wear personal protective equipment. Supervisors must know company policies and procedures and train employees. The supervisor is the only person having direct control over employees therefore; the supervisor is absolutely responsible and accountable for safety.

Safety Bob's Comprehensive Construction Safety Orientation Interactive Online Training [E,S] [2013]

Construction work is very dangerous, as nearly 1,000 workers are killed and thousands of others are injured on construction jobsites each year. While there have been many safety improvements over the years to control the hazards that contribute to these incidents, new and inexperienced workers still get hurt on the jobsite way too often. This program stresses the point that these workers must be responsible for their own personal safety. Construction Safety Specialist Bob Synnett discusses the hazards of construction work and what actions [illegible] can take to [illegible]

Safety Decision-Making: Overcoming Human Nature Interactive Online Training [E,S] [2012]

Many people assume that workers will choose to work safely simply because they don't want to get hurt. Unfortunately, our decision-making process isn't that simple. This program, hosted by safety professional Tom Harvey, uses common examples, reenactments and a little humor to explain how humans are tempted to make unsafe choices by succumbing to the instant gratification of shortcuts, risk-taking and peer pressure.

Safety on or Near Water Streaming Interactive Course [E] [2010]

Safety on or Near Water Details
Safety on or Near Water video discusses some of the many hazards of working on or near water. Some of these hazards can include drowning, slips and falls, personal floatation, electrical shock, and more.

Safety Orientation (Waste Management) Interactive Online Training [E] [2010]

Accidents are caused by unsafe acts of people. It is important that you take an active part in protecting yourself and everyone around you. Safety is everyone's responsibility and we must depend on one another.

Sanitation For Cafeteria And Food Service Areas Interactive Online Training [E] [2005]

Streamline cleaning procedures.

Scaffold Safety: Best Practices Interactive Online Training [E,S] [2024]

This training discusses best practices in using scaffolding, including hazards and precautions for specific types.

Scaffold Safety: Suspended Scaffolding Interactive Online Training [E,S] [2025]

Master OSHA rules for suspended scaffold setup, inspection, and fall protection to prevent accidents.

Scissor Lift Safety Interactive Online Training [E] [2009]

Learn essential safety practices for scaffolding and scissor lift operations to prevent falls and injuries on site.

Security Awareness for Work, Travel & Home Interactive Online Training [E] [2001]

Learn how to maintain personal and workplace security by staying vigilant and following safety procedures at home, while traveling, and on the job.

Self-Contained Breathing Apparatus SCBA Interactive Training [E] [2013]

Self-Contained Breathing Apparatus SCBA Details
Self-Contained Breathing Apparatus (SCBA) (Safety Video)
A self contained breathing apparatus, or SCBA, by employees working in IDLH (immediate danger to life and health) atmosphere. An SCBA typically has three main components: a high-pressure tank, a pressure regulator, and an inhalation connection (mouthpiece, mouth mask or face mask), connected together and mounted to a carrying frame. This video discusses several topics related to working with an SCBA such as SCBA masks, pressure gauges, air tanks, regulators, adjustment straps, facial hair regulations, fit testing and SCBA overview.
Keywords: SCBA, Self-Contained Breathing Apparatus, SCBA face masks, pressure gauges, air tanks, regulators, adjustment straps, facial hair regulations, fit testing and SCBA overview

Severe Weather Alert: Are You Prepared Interactive Online Training [E] [2003]

Learn essential tips to stay safe before, during, and after severe weather events.

Severe Weather Safety: Prepare, Survive And Recover Interactive Online Training [E,S] [2019]

Be ready for severe weather by learning how to respond before, during, and after storms.

Sexual Harassment for Employees Interactive Online Training [E,S] [2018]

Sexual Harassment is an unfortunate situation for any employee to deal with in the workplace. Nobody wants to feel uncomfortable at work. With Atlantic Training's premier safety video on Sexual Harassment for Employees, your personnel can learn how to deal with these situations. Learn about what constitutes as sexual harassment, what an employee should do if they are feeling harassed, and the measures to take when reporting the harassment. At the end of the day, all employees have the right to a healthy, safe, and harassment-free work environment.This program is available with Spanish, French, Korean, and Urdu closed captions.

Sexual Harassment for Managers Interactive Online Training [E,S] [2018]

Sexual harassment in the workplace environment is uncomfortable and uncalled for situation. It can happen with managers and supervisors as well as employees. With Atlantic Training's premier safety video Sexual Harassment for Managers, your management team will learn what sexual harassment is, how to deal with it, and how to report it. They'll learn what Quid-Pro-Quo is and what to do when an employee comes forward.

Sexual Harassment in Chicago for Supervisors (2-Hour Course) Interactive Online Training [E] [2025]

Specifically designed to help Chicago employers fully comply with the law's training requirements.

Sexual Harassment in Chicago: 1-Hour Course Interactive Online Training [E] [2024]

Chicago sexual harassment training covering federal, state, and city laws, plus retaliation, identity, and discrimination.

Sexual Harassment Prevention in Delaware for Supervisors Interactive Online Training [E] [2019]

Learn about Delaware's strict laws against sexual harassment, including training requirements and employer responsibilities.

Sexual Harassment Prevention in Delaware Interactive Online Training [E] [2019]

Learn Delaware's sexual harassment training with our comprehensive course on legalities, investigations, and accountability.

Sexual Harassment Prevention in Illinois for Supervisors Interactive Online Training [E] [2020]

Sexual harassment laws in Illinois protect all employees, with strict employer liability.

Sexual Harassment Prevention in Illinois Interactive Online Training [E,S] [2020]

Stay compliant with Illinois law. Sexual harassment training covering key laws, employer duties, and reporting procedures.

Sexual Harassment Prevention in New York for Managers Interactive Online Training [E,S] [2023]

Ensure compliance with New York state and city sexual harassment laws for managers and supervisors.

Sexual Harassment Prevention in New York Interactive Online Training [E,S] [2023]

A comprehensive course on sexual harassment law and prevention, tailored to New York standards.

Sexual Harassment Prevention Made Simple 2026 Interactive Online Training [E] [2026]

Sexual harassment training covering prevention, reporting, and workplace respect.

Sexual Harassment Prevention Made Simple for Managers 2026 Interactive Online Training [E] [2026]

Train managers to prevent harassment, respond properly, and ensure legal compliance in the workplace.

Sexual Harassment: Investigating Complaints Interactive Online Training [E,S] [2023]

Sexual harassment - be it anywhere - isn't just about sex. It involves the harasser being hostile toward a victim, abusing power over that victim, and hurting the health and well-being of employees and the organization. Harassment becomes a real problem when it is so frequent and severe that it creates a hostile or offensive work environment, or results in an adverse employment decision, such as the employee being demoted or even fired.

Shattered: The Jeff Walters Story Interactive Online Training [E,S] [2010]

This program combines testimonials, a live presentation and reenactments to teach important safety lessons! Jeff Walters, a young newlywed, was more interested in earning the respect of his co-workers than being concerned for his own safety. He saw a broken limit switch on a 19-foot elevated conveyor as his opportunity to impress his co-workers with his abilities and willingness to do whatever it takes to get a job done. After climbing the conveyor without doing a lockout or wearing fall protection, Jeff fell 19 feet to a concrete floor when the conveyor started unexpectedly.

Shop Safety: Spotting Hazards and Protecting Your Crew Interactive Online Training [E,S] [2026]

This training builds essential shop safety skills, covering common hazards, safe work practices, and risk prevention.

Short Service Employee For Gas And Oil Industry Safety Interactive Online Training [E] [2013]

Silica Exposure: Prevention and Response Interactive Online Training [E,S] [2023]

This course is designed to equip workers across various industries â€“ including construction, mining, and manufacturing â€“ with critical knowledge and strategies to prevent and respond to silica exposure.

Six Steps to Lockout/Tagout (Micro) Interactive Online Training [E,S] [2019]

Engage and educate employees with our 5-minute Safety Shortcut program on The 6 Steps to Lockout/Tagout. Use this training for your next tailgate talk or weekly safety meeting.

Skin Cancer Awareness Interactive Online Training [E]

This program is designed to provide basic skin cancer awareness. Additionally, the goal is to reduce exposure of skin cancer to workers exposed to the sun or welding operations. The objective is to make workers aware of skin cancer, seek medical attention if warranted, conduct self and professional examinations of the skin and to eliminate or reduce the severity of skin cancer. Skin cancer can be life threatening, if not detected and treated early.

Slips, Trips and Falls - Canada Interactive Online Training [E] [2026]

Training covers identifying and preventing slips, trips, and falls to ensure workplace safety and reduce injuries.

Slips, Trips and Falls Interactive Online Training [E,S] [2025]

Learn about preventing Slips, Trips, and Falls - the second leading cause of workplace fatalities.

Small Vehicle Safety: Golf Carts and UTVs Interactive Online Training [E,S] [2023]

Master small utility cart and golf cart safety: drive responsibly, protect passengers, maintain your vehicle, and navigate with confidence.

SPCC Oil and Water Do Not Mix Interactive Online Training [E] [2014]

Learn about SPCC plans, oil pollution regulations, and oil storage and transfer procedures.

Speed Management Interactive Online Training [E] [2010]

Speed Management Details
Defensive driving is the key to your survival and the success of the company. According the Federal government research, there are nearly 150,000 heavy truck/bus crashes every year. About 5,000 result in fatalities and 60,000 results in injuries. Drivers should have control of the speed of their trucks. This program focuses on controlling the speed of your truck in various weather, road and environment conditions. This program is great for school bus drivers and anyone operating a large vehicle.

Spill Prevention, Control and Countermeasure (SPCC) Interactive Online Training [E,S] [2026]

This training covers SPCC standards, oil discharge prevention, and response duties to ensure workplace environmental safety.

SpotLight on GHS Hazard Communication: Labels Online Course [E]

This course provides a spotlight on one topic of GHS Hazard Communication â€“ Labels.

SpotLight on GHS Hazard Communication: Safety Data Sheets Online Course [E]

This course provides a spotlight on one topic of GHS Hazard Communication â€“ Safety Data Sheets.

Stairway Safety at Work: Prevent Slips, Trips, and Falls Interactive Online Training [E,S] [2026]

This training covers stairway safety, fall risks, NIOSH habits, and OSHA requirements to prevent common workplace injuries and hazards.

Steel Erection (Construction) Online Course [E]

The Occupational Safety and Health Administration (OSHA) designs and enforces standards to assure a safe work environment for America's workers. Because workers involved in steel erection face specific hazards, OSHA has developed standards to address and help minimize those hazards.
This course covers the OSHA Construction standards for employees involved in steel erection activities.

Stormwater: Erosion Control and Pollution Prevention Interactive Online Training [E,S] [2023]

Protecting our environment and minimizing the impact of stormwater runoff is essential in today's construction industry. This introductory course on Stormwater Pollution Prevention equips participants with the knowledge and skills needed to effectively manage stormwater and prevent pollution on and from construction sites. Designed for construction professionals and individuals responsible for environmental compliance, this training provides a solid foundation in stormwater management practices and regulatory requirements.

Stress Management: Reducing Stress in the Workplace Interactive Online Training [E,S] [2024]

This training explores sources of stress, the effects of stress on the body and mind, and how to mitigate stress.

Sulfuric Acid and Hydrochloric Acid Training Video by Efilm Interactive Training [E] [2005]

"Sulfuric Acid and Hydrochloric Acid," a safety training program about the hazards of acids and safe response to incidents involving acids. Corrosives have a destructive and irreversible effect on tissue. This program provides important safety information for workers who use, store or transport sulfuric or hydrochloric acid, as well as for emergency response personnel who might respond to an incident involving corrosives. Topics:
How to identify corrosive acids
Reactivity problems
Neutralization operations
Emergency medical operations for accidents
Steps to take in an uncontrolled leak, spill or fire
Diking to control runoff
Vapor control
Decontamination.
This safety training video is part of the Hazchem Series

Supervisor and Manager Liability Interactive Online Training [E] [2009]

Employee safety at work is of great importance. It is the law and there are penalties if a worker is injured. This program is for supervisors and managers and how to protect themselves from legal penalties and sanctions. Information also includes understanding the risk, liabilities, responsibilities and obligations.

Supply Chain & Logistics Management Interactive Online Training Course [E,S] [2025]

This course offers a comprehensive roadmap to manage the end-to-end supply chain for on-time, cost-effective product delivery.

Sustainability Practices in Manufacturing Interactive Online Training [E,S] [2025]

This training covers manufacturing sustainability: its importance, operational impact, and your role in responsible production.

Take Safety Home: Preventing Off-Job Injuries Interactive Online Training [E,S] [2009]

After working 25 years as a firefighter and paramedic, Martin Lesperance has treated thousands of injuries and medical emergencies. Now retired, Martin is a popular safety speaker, sharing his experiences with workers in order to prevent injuries. As a former EMT, Martin knows that the majority of injuries occur off the job and conducted this presentation in front of a live audience to encourage all workers to "take safety home."

Take Time for Safety Interactive Online Training [E,S] [2011]

Take the tie and learn the essentials.

Telehandler Safety: Safe Work Practices Interactive Online Training [E,S] [2026]

This training covers eliminating machine tip-overs, utilizing load charts, and enforcing Class 7 multi-industry regulatory compliance.

The Americans with Disabilities Act (ADA): The Basics Interactive Online Training [E,S] [2026]

This training covers identifying ADA obligations, implementing accessible workplace practices, and avoiding discrimination.

The Bed Bug Problem Online Interactive Course [E]

The recent outbreak of bed bugs since World War II has sent a fear among apartment dwellers, college students and travelers the nation. Bed bugs resist many pesticides and spread quickly in certain mattress-heavy buildings such as hotels, dormitories and apartment complexes. Bed bugs carry no known disease and health departments do not consider it a public health threat. This program will focus on how bed bugs affect and gain access in dwellings, their biology, infestations, bites, feeding habits, and how to eliminate them.

The Dark Ages of Safety Interactive Online Training [E] [2006]

Explore the dark ages of safety in this thought-provoking video. Learn from the past and promote workplace safety in the now.

The Family and Medical Leave Act (FMLA) for Supervisors Interactive Online Training [E,S] [2025]

This training discusses the rights, eligibility, and obligations of employers under the Family and Medical Leave Act.

The Foreign Corrupt Practices Act Made Simple Interactive Online Training [E,S] [2016]

Explore FCPA essentials: anti-bribery, accounting, consequencesâ€”ensuring ethical global business practices.

The Mark Standifer Story: Lessons Learned From an Arc Flash Tragedy Interactive Training [E,S] [2004]

Mark Standifer received 2nd and 3rd degree burns over 40 percent of his body and was nearly killed when he was engulfed in an arc blast while performing an electrical task at a wastewater treatment plant. While installing relays on the door of a 13,800-volt switchgear, he made several crucial errors resulting in a tragedy that will affect Mark and his family for the rest of their lives.

The No Fear Act Made Simple Interactive Online Training [E] [2023]

Understand the Notification and Federal Employee Anti-Discrimination and Retaliation Act, its requirements, and protections.

The Power of Apology: Handling Customer Complaints Effectively Interactive Online Training [E,S] [2025]

Transform customer complaints into opportunities with effective apologies and de-escalation for stronger relationships.

The U.S. Constitution for Government Employees Interactive Online Training [E] [2021]

Understand the U.S. Constitution's history, structure, and significance for federal employees.

Think N Drive (Trucking) Interactive Online Training [E,S] [2007]

Commit to taking safety seriously. Think 'N Drive program provides logical, factual information to help you make better driving decisions.

Tick Bite Prevention & Response Interactive Online Training [E,S] [2017]

Learn to identify tick habitats, prevent dangerous bites, and respond effectively to reduce the risk of serious disease.

To The Point About: Arc Flash Protection & Safe Electrical Work Practices Interactive Online Training [E] [2017]

To The Point About: Bloodborne Pathogens - Canada Interactive Online Training [E] [2014]

Learn how to prevent exposure to bloodborne pathogens through safe work practices and proper response procedures.

To The Point About: Bloodborne Pathogens Interactive Online Training [E,S] [2014]

Learn how to prevent bloodborne pathogen exposure with safe practices and control plans.

To The Point About: Confined Space Entry - Canada Interactive Online Training [E]

Controlling access to confined spaces and the hazards they contain can prevent injuries and save lives.

To The Point About: Lockout/Tagout - Canada Interactive Online Training [E]

The unexpected starting of machines or other unplanned releases of hazardous energy can have devastating consequences. Controlling hazardous energy can prevent injuries and save lives. This program explains the procedures workers must follow to protect themselves during lockout operations.

To The Point About: Lockout/Tagout Program Interactive Online Training [E] [2018]

Learn to isolate hazardous energy, apply locks and tags, and safely return machinery to service under OSHA standard 1910.147.

To The Point About: Personal Fall Arrest Systems - Canada Interactive Online Training [E]

This program reviews the proper selection and use of fall arrest equipment.

To The Point About: Preventing Hearing Loss - Canada Interactive Online Training [E]

This program explains how the hearing loss prevention program works to protect workers' hearing.

To The Point About: Safe Forklift Operation - Canada Interactive Online Training [E] [2015]

Unsafe operation of forklifts often contributes to property damage and employee injuries. Ensuring that drivers operate forklifts in a safe manner can prevent injuries and save lives. This program reviews the proper operating procedures forklift operators must follow to keep themselves and their co-workers safe

To The Point About: The Safe Operation of Powered Pallet Jacks Online Interactive Training [E,S] [2022]

Our workplace is full of hazards, hazards that can hurt us or kill us. Controlling these hazards and preventing injuries is the point of our safety and health program. One such hazard is the one presented by the unsafe operation of powered pallet jacks, also known as pallet trucks. These vehicles have the potential to be very dangerous, so it is critical that operators always remain focused on their safe operation.

Transporting Dangerous Goods by Sea: IMDG Overview - Canada Interactive Online Training [E] [2026]

Learn IMDG Code requirements for safely transporting dangerous goods by sea, including classification, packaging, and stowage.

Transporting Dangerous Goods by Sea: IMDG Overview â€“ U.S. Interactive Online Training [E,S] [2026]

Learn essential IMDG Code rules for safely transporting dangerous goods by sea to ensure compliance and safety.

Treatment Plant Laboratory Safety Interactive Online Training [E] [2009]

Learn critical safety protocols in water treatment labs, focusing on chemical safety, PPE, and risk prevention.

Truck Mounted Articulating Knuckle Boom Cranes Interactive Training [E] [2008]

Truck mounted articulating knuckle boom cranes are used to handle, deliver, and pick up a variety of loads. Loads include steel road plate, shoring, trench boxes, boats, vehicles, logs, iron K-rail and much more. Poorly trained operators are the reason for many crane accidents in the industry.

Tuberculosis: Prevention and Control Interactive Online Training [E,S] [2024]

Learn to prevent and control TB in the workplace with OSHA and CDC guidelines, ensuring a safe environment for all.

Turning Setbacks into Comebacks: Resilience in Problem-Solving Interactive Online Training [E,S] [2025]

This course provides a practical toolkit and frameworks to transform professional challenges into opportunities for growth.

Understanding People Online Interactive Training [E] [2008]

Understanding People - A Supervisor's Perspective program is designed to provide an overview of how these relationships occur and the basic psychology of human behavior.
The most important aspect of leadership is the relationship developed between management and employees. This relationship determines the organization's efficiency, discipline, safety, security, productivity.

Understanding Your Facility's Stormwater Pollution Prevention Plan [E,S]

All employees need to know the overall scope of your organization's Stormwater Pollution Prevention Plan and the role each person plays in its success. Pollution spread by contaminated stormwater is a real problem and providing your employees with an understanding of your facility's plan is the purpose of this program.

University Laser Safety Interactive Online Training [E,S]

Laser safety is a critical part of any university's laboratory safety program. The purpose of this program is to provide you with guidance in the safe use of lasers. This program will include a brief discussion on the classification of lasers.

Utility Cart Safety Online Interactive Training [E]

Utility Cart Safety - Small electrical or gas-powered carts are used to perform a wide variety of tasks. These carts are commonly known as utility, industrial, service, electric carts. This program is designed to outline safety responsibilities on utility carts.

Valve Crew Safety Interactive Training [E] [2008]

Valve maintenance tends to get little attention except when there is a main break. According to AWWA, every valve should be operated through a full cycle on a schedule designed to prevent a buildup of deposits. The valve crews are in charge of making sure valves will open and close when required and ensure water quality and adequate fire flows. Operating valves as it relates to Homeland Security since someone could compromise the water system. Organizations that take advantage of a valve maintenance program realize the benefits to them and the public.

Vehicle Inspection and Maintenance for CMV Drivers [E]

Even a safe driver cannot avoid accidents caused by mechanical failure; the best defense against this type of accident is prevention through performing the appropriate inspections. This course, developed in conjunction with the experts from the Transportation Safety Institute (TSI) of the U.S. Department of Transportation (DOT), focuses on the role of the CMV driver in keeping his or her CMV in safe working order by inspecting the vehicle at the start and end of every day. By properly inspecting the vehicle you drive, you will help keep other drivers and yourself safe on the highway. In this course, you will learn about the types of inspections that drivers need to complete, including what to do if defects or problems are uncovered during an inspection. In addition, you will see detailed requirements for some of the equipment covered in the driver vehicle inspections.

Vehicle Inspection: Best Practices Interactive Online Training [E,S] [2025]

This course will help you understand regulations and best practices to ensure your vehicle is safe and reliable to drive.

Venomous Snakes Interactive Online Training [E,S] [2010]

There is a fear of snakes but having knowledge about them, your chances of an unpleasant encounter should be reduced and your personal safety eliminated. The creatures in this film fill an important niche in the environment so avoid killing snakes as they benefit all of us.

Wage and Hour Compliance (FLSA) Made Simple Interactive Online Training [E] [2021]

Stay compliant with updated overtime regulations and key aspects of the Fair Labor Standards Act.

Walkie Stacker Safety Interactive Online Training [E] [2009]

Walkie Stacker Safety Details
The expertise, experience and professionalism of forklift maintenance mechanics keep the company on the move. A forklift maintenance mechanic must be knowledgeable of engineering, hydraulics, brake and engine systems, fuel systems, cooling systems and much more. Above all, the mechanic's responsibilities include safety. This program is about safety and wearing special protective equipment while performing your job.

Warehouse and Distribution Center Safety: Chemical and Electrical Hazards Interactive Online Training [E,S] [2024]

This training identifies chemical and electrical dangers and their solutions in warehouses and distribution centers.

Warehouse and Distribution Center Safety: Hazards and Solutions Interactive Online Training [E,S] [2024]

This training identifies dangers associated with warehouses and distribution centers and solutions for addressing the hazards.

Welding Safety Training Package Interactive Online Training [E]

Protect your welders with required training to ensure safety and reduce workplace injuries.

Wellness, Fitness and Health: Be Your Best You Interactive Online Training [E,S] [2024]

Being engaged in life and relationships with others requires a balance of overall health and wellness.

What Would You Say? - French Online Interactive Training [E,S]

We all occasionally witness unsafe behavior, but talking with our coworkers about safety can be difficult. We don't want to hurt feelings or make people mad, but we also don't want anyone to get hurt. This helpful video teaches us to effectively communicate with co-workers when we see them behaving unsafely.

WHMIS & the GHS Employee Training - Canada Interactive Online Training [E]

WHMIS helps ensure quality and consistency in the classification and labeling of all chemicals, which improves an employee's ability to quickly understand critical safety information. This program is designed to help employees understand the three key elements of WHMIS: Hazard Classification, container labeling, and Safety Data Sheets.

Winter Driving: When The Rules Change Interactive Online Training [E] [2005]

Learn crucial winter driving techniques to avoid accidents and stay safe on icy roads.

Winter Safety: Safe Driving Practices Interactive Online Training [E,S] [2024]

Become a more confident driver this winter with expert driving techniques, hazard recognition, and emergency preparedness.

Winter Walking: Staying On Your Feet Interactive Online Training [E] [2013]

Learn essential walking techniques to stay safe and avoid injuries during winter conditions.

Winter Weather: Employee Safety Interactive Online Training [E,S] [2022]

In this training, you will learn how to protect yourself from cold-related hazards through the appropriate use of clothing and personal protective equipment. We will also explore different scenarios where winter weather can be particularly fatal â€“ at work, on the way to and from work, and at home. Our training will conclude with tips on building your own cold-weather preparation and first-aid kits to ensure you are ready for the most common effects of cold exposure â€“ along with general tips for dealing with cold stress in the workplace.

Work Standards and Safety Interactive Online Training [E,S] [2008]

Learn how to maintain a safe work environment and adhere to industry guidelines for a productive and injury-free workplace.

Work Zone Safety: Best Practices Interactive Online Training [E,S] [2025]

This course will help you understand work zone hazards and best practices to protect yourself from them.

Working Alongside AI: Myths and Misconceptions Interactive Online Training [E,S] [2024]

This training identifies myths and misconceptions in working with artificial intelligence, and the benefits and risks of AI.

Working With Benzene Interactive Training [E] [2005]

The health effects of any toxic substance are related to the amount of exposure, also known as a dose. The greater the dose the more severe the effects. Some chemicals can cause toxicity at very low doses. Parts per million (PPM) is a familiar term to anyone working with chemicals and toxic materials. It is important to understand how very small amounts of toxicity are measured. This program explains the various measurements of contaminants and the hazards of Benzene with emphasis on safety.

Working with Electricity: Basic Electrical Safety Interactive Online Training [E,S] [2023]

Arm yourself with electrical safety essentials, from circuit flow to hazard recognition and mitigation in the workplace.

Workplace Culture 101 Interactive Online Training [E,S] [2023]

6 Training Shorts designed to immediately improve your company culture.

Workplace Culture: Building Accountability Interactive Online Training [E,S] [2023]

Accountability in the workplace goes beyond taking basic responsibility. It's time to own your actions (and your growth!)

Workplace Culture: Building Effective Teams Interactive Online Training [E,S] [2023]

This course focuses on building positive teamwork by covering what makes an effective team, the benefits, and more.

Workplace Culture: Collaborating Across Departments Interactive Online Training [E,S] [2025]

This course will prepare you to effectively collaborate with other departments by examining helpful strategies and practices.

Workplace Culture: Critical Thinking and Decision-Making Interactive Online Training [E,S] [2025]

Learn critical thinking and decision-making to analyze situations, apply techniques, and make informed choices.

Workplace Culture: Empowering Employee Decisions Interactive Online Training [E,S] [2023]

Learn communication, active listening, collaboration, and self-reflection skills essential for career growth and team success.

Workplace Culture: Positivity in the Workplace for Corporations Interactive Online Training [E,S] [2022]

"The Power of Positive Thinking" â€“ have you heard this phrase before? Everyone generally agrees on the goal of seeking or maintaining personal happiness. We often are also concerned about the well-being of others. In pursuit of this happiness, we might consider work as simply an obstacle or annoyance. Taking a positive approach to the workplace allows us to extend this pursuit to our careers and professional relationships. According to the U.S. Bureau of Labor Statistics, on average we work more than most typical household and leisure activities combined. In other words, we typically spend more time interacting at work than we do with family or friends.

Workplace Culture: Positivity in the Workplace Interactive Online Training [E,S] [2022]

"The Power of Positive Thinking" â€“ have you heard this phrase before? Everyone generally agrees on the goal of seeking or maintaining personal happiness. Workplace Safety: Using Ladders Safely Interactive Online Training [E,S] [2023]

Ensuring you pick the right ladder based on use, performance capacity, and material is an integral part of ladder safety. Knowing when to use, or avoid, a specific type of ladder will ensure the climber doesn't exceed weight capacity, overreach, or choose a conductive material when working with electricity or during inclement weather. While the extension ladder and wooden step ladders are common, there may be other options available to use. Check the performance rating, and, if you're unsure which ladder is best or safest to use for a job, ask your supervisor to help.
Whether using a portable or fixed ladder, safe ascension and descension are paramount to reducing your risk of falling or injuring someone else. Ensure your shoes are non-slip, and keep your hands clear so that you can successfully use the three point-of-contact technique. Ladders are a common tool across industries, and understanding the necessary precautions and regulations will help keep you and your coworker safe.

Workplace Security Awareness Interactive Online Training [E] [2001]
